(Received 10 March 2009; accepted 10 March 2009; published online 8 April 2009)

[DOI: [10.1063/1.3110229](https://doi.org/10.1063/1.3110229)]

In response to interest from the community and activity in the relevant fields, *Physics of Fluids* has introduced two new topical sections, beginning in the first quarter of 2009. The new sections are:

- **Biofluid Mechanics** (Sec. 19) and
- **Micro- and Nanofluid Mechanics** (Sec. 20).

Authors submitting to the journal at <http://pof.peerpress.org> will find these two new choices, under “Manuscript Type.” Authors with papers already being processed but not yet published may change the designated “Manu-

script Type” to one of these new areas if they provide a better fit to the subject matter of their paper. A view of the full list of topical sections (current and past) is available through the “Citation Format” link at the Journal’s homepage (http://pof.aip.org/pof/citation_format.jsp).

We hope that, with the introduction of these new sections, researchers publishing in these fields will find that their published papers receive even more focus than in the past. As always, we welcome your comments on this and other issues regarding journal operations; contact us at pof@ea.ucla.edu and pof@engineering.ucsb.edu.
