

Roger G. Newton, Editor
John L. Challifour, Associate Editor
Penelope Brigham, Assistant Editor
Indiana University, Bloomington, IN 47405

Editorial Board

Stephen L. Adler

Institute for Advanced Study
Princeton, NJ 08540, USA
Quantum mechanics and quantum field theory, algorithms for computational physics

Huzihiro Araki

Kyoto University
Research Institute for Mathematical Sciences
Sakyo-ku, Kyoto 606-01, Japan
Algebraic methods for quantum field theory and statistical mechanics, operator algebras

Louise A. Dolan

Physics Department
University of North Carolina
Chapel Hill, NC 27599, USA
Quantum field theories, string theory, dynamical systems

Viktor Dotsenko

Landau Institute for Theoretical Physics,
Russian Academy of Sciences
117940 Moscow, Russia
Disordered spin systems, Ising models phase transitions and critical phenomena

Robert Geroch

Department of Physics
University of Chicago
5640 So. Ellis Ave.
Chicago, IL 60637, USA
General relativity, differential geometry

John D. Gibbon

Imperial College
Department of Mathematics
180 Queen's Gate
London SW7 2B2, United Kingdom
Attractors in PDEs, Navier–Stokes analysis, integrable systems, nonlinear waves

Martin C. Gutzwiller

IBM T. J. Watson Research Center
P.O. Box 218
Yorktown Heights, NY 10598, USA
Quantum physics, classical mechanics, dynamical systems

Gary Horowitz

University of California
Santa Barbara
Department of Physics
Relativity Theory Group
Santa Barbara, CA 93106-9530, USA
Classical and quantum gravity

Oscar E. Lanford III

Eidgen. Tech. Hochschule (ETH)
Mathematik, HG G481
8092 Zurich, Switzerland
Dissipative dynamical systems

J. L. Lebowitz

Department of Mathematics
Rutgers University
Hill Center-Busch Campus
New Brunswick, NJ 08903, USA
Statistical physics

Elliott Lieb*

Jadwin Hall
Princeton University
P.O. Box 708
Princeton, NJ 08544, USA
Statistical physics, Schrödinger operators

Yoichiro Nambu*

University of Chicago,
Enrico Fermi Institute
5640 South Ellis Ave.
Chicago, IL 60637-1433 USA
Particle theory

Ezra T. Newman

Department of Physics
University of Pittsburgh
Pittsburgh, PA 15213, USA
Relativity and gravitation, classical mechanics and field theory

Tullio Regge*

Universita Politecnico di Torino,
Dipartimento di Fisica
Corso Duca degli Abruzzi, 24
I-10129 Torino, Italy
General relativity

Carlo Rovelli

University of Pittsburgh
Department of Physics
and Astronomy
100 Allen Hall,
3941 O'Hara St.
Pittsburgh, PA 15260 USA
General relativistic and spacetime physics, canonical quantization techniques, quantum gravity

P. C. Sabatier

Laboratoire de Physique
Mathematique
Université des Sciences
Place Eugene-Bataillon
34095 Montpellier Cedex, France
Scattering theory, inverse problems, wave propagation (including water waves)

F. Wilczek

Institute for Advanced Study
Princeton, NJ 08540, USA
Cosmology, quantum mechanics, geometrical methods, quantum field theory

*For various reasons, manuscripts should not be sent to these members of the Editorial Board.

AIP Production: Lin Miller, *Editorial Supervisor*; Andrea Witt, *Journal Coordinator*; Carolyn DeMarco, *Chief Production Editor*.

Submit manuscripts (3 copies) to Office of the Editor, *Journal of Mathematical Physics*, Indiana University, The Poplars, Room 324, Bloomington, IN 47405. There is no publication charge.

Authors who wish to have their manuscript handled by a specific member of the Editorial Board should so notify the editorial office at the time of their submission, and also send two copies (in addition to the three sent to the editorial office) of their manuscript to the Board member of their choice. Detailed information on manuscript submission can be found in the January issue.

Physics Auxiliary Publication Service (PAPS) and/or Electronic PAPS (E-PAPS): For a nominal fee, authors may submit material that is part of and supplemental to a paper, but is too long to be included in the journal. PAPS deposits may be on paper or in electronic media, and can include text, data in graphic or numeric form,

computer programs, etc. Retrieval instructions are footnoted in the related published paper. Direct requests to the editor.

Proofs and all correspondence concerning papers in the process of publication should be addressed to: Editorial Supervisor, *Journal of Mathematical Physics*, American Institute of Physics, 500 Sunnyside Boulevard, Woodbury, NY 11797-2999.

Additional information regarding subscriptions, reprints, and permissions appears following the table of contents.

The *Journal of Mathematical Physics* (ISSN: 0022-2488) is published monthly by the American Institute of Physics. Periodicals postage paid at Woodbury, NY 11797, and additional mailing offices. POSTMASTER: Send address changes to the *Journal of Mathematical Physics*, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.
