Publication Charge: The American Institute of Physics does not require page charges for this journal.

Open Access: Through participation in *Author Select*[®] and payment of a \$1500 fee, authors may choose open access publication for their accepted papers. See information during manuscript submission at <http://jmp.peerx-press.org>.

Free Color Online: If authors supply usable color graphics files in time for the production process, color will appear in the online

journal free of charge. Authors or their institutions must bear the cost of any color they wish to use in print. As of 1 January 2009, a fixed rate of \$325 for each color figure applies for color in print. For multipart figures, a single charge will apply only if all parts are submitted as a single piece of artwork.

Journal of Mathematical Physics is published by the American Institute of Physics (AIP); content is published online daily, collected into a monthly online and printed issue (12 issues per year). Its purpose is the publication of papers in mathematical physics—that is, the application of mathematics to problems in physics and the development of mathematical methods suitable for such applications and for the formulation of physical theories. The mathematics should be written in a manner that is understandable to theoretical physicists. Occasionally, reviews of mathematical subjects relevant to physics and special issues combining papers on a topic of current interest may be published.
