

# Applied Physics Letters

Hartmut Wiedersich, Editor

Gilbert J. Perlow, Consulting Editor

Charles W. Allen, Samuel D. Bader, Alan R. Krauss, Alexander Langsdorf, Jr., F. Paul Mooring,

Lynn E. Rehn, P. James Viccaro, and Linda Young, Associate Editors

Diane M. Kurtz, Assistant to the Editor

## Editorial Board

Term ending 31 December 1991

J. I. Budnick

Arthur C. Gossard

Peter J. Price

Term ending 31 December 1992

David K. Biegelsen

Robert L. Byer

Frans Spaepen

Term ending 31 December 1993

L. Eric Cross

D. K. Finemore

J. Murray Gibson

Frans W. Saris

AIP EDITORIAL STAFF: Deborah McHone, *Editorial Supervisor*; Susan Maloney, Cindy Klingensmith, *Senior Production Editors*; Elizabeth Belmont, *Journal Coordinator*

*Applied Physics Letters* is published weekly by the American Institute of Physics with the cooperation of the American Physical Society and the Optical Society of America. Its purpose is to provide rapid dissemination of new developments in fields regularly covered by the *Journal of Applied Physics*.

## Information for Contributors

**Submit manuscripts** to Hartmut Wiedersich, Editor, *Applied Physics Letters*, Argonne National Laboratory, P. O. Box 8296, Argonne, IL 60439-8296. Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

**Publication Charge:** To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a *page charge* of \$95 per page (with a one page minimum) and an *article charge* of \$20 per article. For Errata the minimum page charge is \$10, with no article charge. Nonpayment of the publication charge may lead to delay in publication.

**Timeliness and current importance of the subject matter,** and brevity and clarity of the presentation determine the acceptability of contributions. Feasibility studies and mere proposals for future research seldom meet the criteria for acceptability. Contributions lacking the element of urgency may be acceptable as *Communications in the Journal of Applied Physics*. Each Letter should be reasonably self-contained, and may on occasion be followed by a comprehensive report in the *Journal of Applied Physics* or elsewhere. Results of an extended research program should not be presented as a series of Letters in place of a comprehensive article.

**Manuscripts** may normally be planned to occupy two journal pages, and must never exceed three journal pages. An abstract limited to about 100 words is required. In addition to the title, abstract, and references, the two-page length permits about 1800 words of text, reduced however by allowances for equations, tables, and figures. An average one-column figure with its caption will displace about 220 words of text. Authors are cautioned that discovery of excess length might not occur until a late stage in publication and would then result in delay

and expense. Circumvention of the length limitation by division of a long article into small parts is considered to be contrary to the purposes of this journal.

A section on *Comments* is available for criticism or additions to Letters already in print. A Response will normally be solicited to a critical Comment. Comments should contain 1000 words or less.

Instructions for preparation of manuscripts will be found in most issues of this journal. In brief and incomplete summary: Two copies of the manuscript, including clear copies of the figures, are required double spaced throughout on one side of 21.6 × 28 cm (8½ × 11 in.) paper. The abstract, references, figure captions, and tables are similarly to be double spaced, each on its separate sheet. The original figures should be line drawings or high-contrast glossy prints not larger than 21.6 × 28 cm and should be included with the submission. References should conform to the style used in AIP journals, including this one. Unusual mathematical symbols should be clarified with marginal notes.

**AIP's Physics Auxiliary Publication Service (PAPS)** is a low-cost depository for material which is part of and supplementary to a published paper, but is too long to be included in the journal; inquire of the Editor.

**Proof and all correspondence** concerning papers in the process of publication should be addressed to: Editorial Supervisor, *Applied Physics Letters*, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797. In all correspondence reference should be made to title, author, journal, and scheduled date of issue. A limited number of alterations in proof are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

**Copyright 1991,** American Institute of Physics. Individual teachers, students, researchers, and libraries acting for them are permitted to make copies of articles in this journal for their own use in research or teaching, including multiple copies for classroom or library reserve use, provided such copies are not sold. Copying for sale is subject to payment of copying fees. (See "Copying Fees" paragraph elsewhere in this journal.) Permission is granted to quote from this journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires in addition the consent of one of the original authors and notification to AIP. Reproduction for advertising or promotional purposes, or republication in any form, is permitted only under license from AIP, which will normally require that the permission of one of the authors also be obtained. Direct inquiries to Office of Rights and Permissions, American Institute of Physics, 335 East 45 Street, New York, NY 10017-3483.

\* The journal is available on microfiche at \$85 per year to members and \$695 per year at the regular rate.

<sup>†</sup> AIP Member and Affiliated Societies.

<sup>‡</sup> Regular rate subscriptions to Europe, Asia, Africa, and Oceania include air freight service.

**Back-Number Prices.** Single copies: \$15.00.

*Applied Physics Letters* (ISSN: 0003-6951) is published weekly by the American Institute of Physics. Second-class postage rates are paid at Woodbury, NY, and at additional mailing offices. Postmaster: send address changes to *Applied Physics Letters*, 500 Sunnyside Blvd., Woodbury, NY 11797.

**Subscriptions, renewals, and address changes** should be addressed to *Member and Subscriber Services Division, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797*. Allow at least six weeks' advance notice. For address changes please send both old and new addresses and, if possible, include a mailing label from the wrapper of a recent issue. For your convenience a **change of address form is included in every issue of *Physics Today*; please**

**use it.** Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price. (AIP Headquarters and Advertising offices are located at 335 East 45 St., New York, NY 10017).

**Single-Copy and Reprint orders** should be addressed to *Publication Billing, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797*. Reprints of individual articles in this journal may be ordered at \$10.00 per article copy (postage included). Airmail delivery is available. Orders are filled within one week of receipt or of the date of publication, whichever is later.

**Copying Fees:** The code that appears on the first page of articles in this journal gives the fee for each copy of the article made beyond the free copying permitted by AIP. (See statement under "Copyright" elsewhere in this journal.) If no code appears, no fee applies. The fee for pre-1978 articles is \$0.25 per copy. With the exception of copying for advertising and promotional purposes, the express permission of AIP is not required provided the fee is paid through the *Copyright Clearance Center, Inc. (CCC), 21 Congress St., Salem, MA 01970*. Contact the CCC for information on how to report copying and remit payment.

**Microfilm subscriptions** of complete volumes of *Applied Physics Letters* are available on 16 mm and 35 mm. *Applied Physics Letters* also appears on a monthly basis in *Current Physics Microform (CPM) Section 1* along with 32 other journals published by the American Institute of Physics and its member societies. A *Microfilm Catalog* is available on request. *Applied Physics Letters* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP and its member societies.
