*Applied Physics Letters* is a weekly journal, published by the American Institute of Physics (AIP), featuring concise, up-to-date reports on significant new findings in applied physics. Emphasizing rapid dissemination of key data and new physical insights, *Applied Physics Letters* offers prompt publication of new experimental and theoretical papers bearing on applications of physics phenomena to all branches of science, engineering, and modern technology. The journal emphasizes coverage of significant new topics, such as, in recent years, high- $T_c$  superconductors, diamond films, porous silicon, and fullerenes.

**Publication Charge:** To support the cost of wide dissemination of research results through publication of journal pages and production of a database of articles, the author's institution is requested to pay a page charge of \$95 per page (with a one-page minimum) and an *article charge* of \$20 per article. For Errata the minimum page charge is \$10, with no article charge.
