

CHAOS: An Interdisciplinary Journal of Nonlinear Science

Editor-in-Chief: David K. Campbell, Department of Physics, Univ. of Illinois—UC

Editors

F. Tito Arecchi, Istituto Nazionale di Ottica
 David Crighton, Cambridge University
 Irving Epstein, Brandeis University
 Mitchell Feigenbaum, Rockefeller University
 Leon Glass, McGill University
 Francis Moon, Cornell University
 Anatoly Neishtadt, Space Research Institute, Moscow, Russia
 Lev Ostrovsky, Institute of Applied Physics, Nizhnyi Novgorod, Russia
 Harry L. Swinney, University of Texas at Austin
 Charles Tresser, IBM, Yorktown Heights
 George Zaslavsky, Courant Institute at New York University

Advisory Board

M. J. Ablowitz (Univ. of Colorado, Boulder)
 M. Boldrin (Northwestern Univ.)
 B. V. Chirikov (Inst. of Nuclear Phys., Russia)
 S. Ciliberto (Ecole Normale Supérieure de Lyon, France)
 J. Crutchfield (Univ. of Calif., Berkeley)
 P. Cvitanovic (NORDITA)
 J. C. Eilbeck (Heriot-Watt Univ.)
 J. Feder (Univ. of Oslo)
 A. Goldbeter (Univ. Libre de Bruxelles)
 P. Grassberger (Univ. of Wuppertal)
 B. L. Hao (Inst. of Theor. Phys., China)

P. Huerre (Ecole Polytechnique)
 T. Kambe (Univ. of Tokyo)
 K. Kaneko (Univ. of Tokyo)
 K. Khanin (Landau Inst. Theor. Phys., Russia)
 N. Kopell (Boston Univ.)
 I. Krichever (Landau Inst. Theor. Phys., Russia)
 V. Lazutkin (St. Petersburg State Univ., Russia)
 H. Levine (Univ. of Calif., San Diego)
 F. Lund (Univ. of Chile)
 M. V. Nezlin (Kurchatov Inst. At. Energy, Russia)
 E. Ott (Univ. of Maryland)

F. G. Pfeiffer (Tech. Univ., München)
 R. Ribotta (Univ. of Paris Sud)
 R. Z. Sagdeev (Univ. of Maryland)
 L. Shilnikov (Inst. Appl. Math. & Cybern., Russia)
 Ya. Sinai (Landau Inst. Theor. Phys., Russia)
 S. A. Solla (AT&T Bell, Holmdel)
 C. Sparrow (Cambridge Univ., UK)
 W. Szemplinska-Stupnicka (Inst. of FTR, Warsaw)
 T. Tél (Eötvös Univ., Budapest)
 H. Troger (Tech. Univ. Wien)
 Y. Ueda (Kyoto Univ.)

Scientific Secretary (Moscow): F. Varpahovsky

Assistant to the Editor-in-Chief: Janis Bennett

Editorial Staff at AIP: Lin Miller, Editorial Supervisor; Andrea Witt, Journal Coordinator; Richard O'Keefe, Chief Production Editor

CHAOS is a quarterly journal published by the American Institute of Physics (AIP) and devoted to increasing the understanding of nonlinear phenomena and describing the manifestations in a manner comprehensible to researchers from a broad spectrum of disciplines.

Submit manuscripts to Janis Bennett, CHAOS Editorial Office, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797-2999. Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is also available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

Manuscripts: submit 4 copies typed double space throughout [see the "Information for Manuscript Preparation" printed in this issue]. Figures must be of camera-ready quality, and should be identified on the back by the journal, the authors name, and figure number. Authors should also consult the *AIP Style Manual*, published by the American Institute of Physics. It may be obtained for \$10.00 (payment must be enclosed) from the American Institute of Physics, c/o AIDC, 64 Depot Road, Colchester, VT 05446. To order via credit card, call toll free: 800-488-2665.

Reprints: There is no publication charge. Reprints may be ordered at current rates from Publication Billing-Reprints Section, 500 Sunnyside Blvd., Woodbury, NY 11797; minimum order of 100 is required.

AIP's **Physics Auxiliary Publication Service (PAPS)** is a low-cost depository for material that is part of and supplementary to a published paper but is too long to be included in the journal; inquire of the Editor.

Proofs and all correspondence concerning papers accepted for publication should be addressed to: Editorial Supervisor, *CHAOS*, American Institute of Physics, 500 Sunnyside Boulevard, Woodbury, NY 11797-2999. In all correspondence, reference should be made to title, author, journal, and scheduled date of issue. A limited number of **alterations in proof** are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

Copyright 1993 by the American Institute of Physics.

Permission is granted to quote from the journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires in addition the consent of one of the original authors and notification to AIP. Reproduction for advertising or promotional purposes, or republication in any form, is permitted only under license from AIP, which will normally require that the permission of one of the authors be obtained. Direct inquiries to: Office of Rights and Permissions, American Institute of Physics, 500 Sunnyside Boulevard, Woodbury, NY 11797-2999.

On the equality of Hausdorff and box counting dimensions	
Ronnie Mainieri	119
On noise reduction methods for chaotic data	
Peter Grassberger, Rainer Hegger, Holger Kantz, Carsten Schaffrath, and Thomas Schreiber	127
Measuring the similarity between trajectories using clustering techniques	
Ben H. Jansen and Henrik N. Nyberg	143
Exit times and transport for symplectic twist maps	
R. W. Easton, J. D. Meiss, and S. Carver	153
Solution multistability in first-order nonlinear differential delay equations	
Jérôme Losson, Michael C. Mackey, and André Longtin	167
A method of investigation of the evolution of a nonlinear system driven by pulsed noise	
G. A. Mersov, S. S. Moiseev, and Yu. M. Nezlina	177
Chaos in the one-dimensional gravitational three-body problem	
Jarmo Hietarinta and Seppo Mikkola	183
Deterministic chaos in a quantum mechanical system described by a time-independent Hamiltonian: A model of three Josephson junctions in a loop	
R. H. Parmenter and L. Y. Yu	205
New cases of quasiperiodic motions in reversible systems	
M. B. Sevryuk	211
Attractor vicinity decay for a cellular automaton	
James P. Crutchfield and James E. Hanson	215
Local Lyapunov exponents for spatiotemporal chaos	
Arkady S. Pikovsky	225
Traveling waves in lattice models of multidimensional and multicomponent media. II. Ergodic properties and dimension	
V. S. Afraimovich, Ya. B. Pesin, and A. A. Tempelman	233

*AIP Member and Affiliated Societies.

[†]Available for personal use only.[‡]Includes air freight service.

Back-Number Prices. 1993 single copies: \$60. Prior to 1993 single copies: \$30—members, \$60—nonmembers.

CHAOS (ISSN: 1054-1500) is published quarterly by the American Institute of Physics. Second class postage rates paid at Woodbury, NY, and at additional mailing offices. POSTMASTER: Send address changes to *CHAOS*, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

Subscription, renewals, and address changes should be addressed to AIP, Member and Subscriber Services (MASS) Division, 500 Sunnyside Blvd., Woodbury, NY 11797-2999. Allow at least six weeks' advance notice. For address changes please send both old and new addresses and, if possible, include a mailing label from the wrapper of a recent issue. For your convenience a **change of address form is included in every issue of *Physics Today*; please**

use it. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price. (AIP Headquarters and Advertising offices are located at 335 East 45th St., New York, NY 10017.)

Single-copy orders (current and back issues) should be addressed to AIP, MASS Division, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

Reprints of individual articles in this journal may be ordered singly at \$10.00 per article copy (postage included). Airmail delivery is available. Orders are filled within one week of receipt or of the date of publication, whichever is later. Send orders to AIP, MASS Division, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

Copying Notice: Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the American Institute of Physics, provided that the appropriate fee per page is paid directly to the Copyright Clearance Center (CCC), 27 Congress Street, Salem, MA 01970.

The item-fee code for this publication is 1054-1500/93 \$06.00.

Microfilm Subscriptions of complete volumes of *CHAOS* are available on 16 mm and 35 mm. *CHAOS* also appears on a monthly basis in *Current Physics Microform* (CPM) Section 1 along with 32 other journals published by the American Institute of Physics and its member societies. A *Microfilm Catalog* is available on request. *CHAOS* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP and its member societies.
