Manuscript No: _____

CHARGE TO REVIEWERS

A paper to be published in the Journal of Applied Physics should contain physics in the sense of interpreting or analyzing the observed phenomena in terms of basic mechanisms. Possible applications should be indicated.

Please review the manuscript, indicating the areas of concern in your report, or on the manuscript. The following questions indicate our criteria; check them off. Please write us a letter with your comments and suggestions as these are the most important part of the review. Write them in such a manner that they can be passed directly to the author. Type them in duplicate with one copy prepared so as not to reveal your identity or institution. Reviews by **e-mail** or **fax** are welcome. **You need not return the manuscript unless you have marked on it.**

MAJOR CRITERIA

Y N

1. Does the paper contain enough new and interesting material of good scientific quality to justify publication in the Journal of Applied Physics? [] []

2. Is the subject of the paper applied physics, as opposed to technology or recipes? [] []

EDITORIAL CRITERIA

3. Does the paper make good use of journal space? If not, please indicate where can it be cut. [] []

4. Is the paper well organized? [] []

5. Is the paper clearly written and free of awkward constructions? [] []

6. Is the paper free of grammatical and spelling errors? [] []

7. Is the title appropriate, short, and likely to attract readers? [] []

8. Does the abstract include the important points of the paper? [] []

9. Are the figures, tables, and their captions clear? [] []

10. Are references to related work adequate? [] []
