THE JOURNAL OF CHEMICAL PHYSICS is published semi-monthly by the American Institute of Physics. Its purpose is to bridge a gap between journals of physics and journals of chemistry. The artificial boundary between physics and chemistry has now been in actual fact completely eliminated, and a large and active group is engaged in research which is as much the one as the other. It is to this group that the Journal is rendering its principal service and makes its greatest appeal, both as a prompt and efficient medium for publication of research and as a convenient and carefully edited assemblage of pertinent information.

Information for Contributors

Send manuscripts to J. W. STOUT, Editor, *The Journal of Chemical Physics*, Department of Chemistry, The University of Chicago, Chicago, Ill. 60637. Unless otherwise stated, submission of a manuscript is a representation that it has not been copyrighted, published, or currently submitted for publication elsewhere.

Publication Charge: To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a page charge of \$70 per page (with a one-page minimum) and an article charge of \$20 per article. The page charge (if honored) entitles the author to 100 free reprints. For Errata the minimum page charge is \$10, with no article charge and no free reprints. Nonpayment of the publication charge may lead to delays in publication.

All mathematical expressions and formulas, insofar as possible, should be typed, with unavailable Greek letters or symbols inserted neatly in ink. Distinguish between capital and small letters. Avoid complicated superscripts and subscripts. Avoid repetition of a complicated expression by representing it by a symbol. Identify in the margin handwritten Greek letters and unusual symbols. Use fractional exponents instead of root signs, and use the solidus (/) for fractions wherever its use will save vertical space.

References should appear as consecutively numbered footnotes. Literature citations of technical journals should be in the form indicated in the Style Manual of the American Institute of Physics (price \$2.50 prepaid from American Institute of Physics, Dept. BN, 335 East 45th Street, New York, N. Y. 10017).

Tables may be typewritten on sheets separate from the running text. Each table must have a caption that will make the data in the table intelligible without reference to the text. Avoid complicated column headings.

Figures should, whenever practicable, be planned for reproduction in one-column width (7.5 cm). Line drawings should be India ink on white paper or high-quality tracing cloth. The original drawing or a high-quality glossy print should be submitted. To facilitate mailing and handling, original drawings should not exceed 22 by 28 cm in size. Lettering, preferably drawn with a mechanical set, should be of a size so that when reduced the smallest lower-case letters will not be less than

about 1.5 mm. Avoid gross disparities in lettering size on a drawing. Consult the Style Manual of the American Institute of Physics for further discussion of figures. Type figure captions on a separate sheet of paper. Number figures consecutively. Identify each original drawing or photograph with the figure number and authors' names, written where they will not be reproduced.

Proof and all correspondence concerning papers in the process of publication should be addressed to: Editorial Supervisor, *The Journal of Chemical Physics*, American Institute of Physics, 335 East 45th Street, New York, N. Y. 10017. In all correspondence, reference should be made to title, author, journal, and scheduled date of issue. A limited number of alterations in proof are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

Microfilm editions of backvolumes of *Journal of Chemical Physics* are available on 16 and 35 mm; Vols. 1-31 (1933-59) \$508; Vols. 32-51 (1960-69) \$1038; Vols. 52, 53 (1970) \$142; Vols. 54, 55 (1971) \$145; Vols. 56, 57 (1972) \$151; Vols. 58, 59 (1973) \$159; Vols. 60, 61 (1974) \$150. Discount price for complete set Vols. 1-55 (1933-71) \$1344. Special discounts for the complete backfile of journals published by AIP are also available.

The Journal of Chemical Physics also appears on a monthly basis in Current Physics Microform (CPM) Section I (\$1600 per year) along with 20 other journals published by the American Institute of Physics and its member societies. *The Journal of Chemical Physics* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP or its member societies.

Subscription renewals, address changes, and single-copy orders should be addressed to: Subscription Fulfillment Division, American Institute of Physics, 335 East 45th Street, New York, N. Y. 10017. Allow at least six weeks advance notice. For address changes please send both old and new addresses, and, if possible, include an address-stencil imprint from the mailing wrapper of a recent issue. For your convenience a **change of address form is included in every issue of Physics Today; please use it.**
