Information for Authors

Submissions: Submit manuscripts (2 copies) to Donald Levy, Editor, *The Journal of Chemical Physics*, Department of Chemistry, 5735 S. Ellis Ave., The University of Chicago, Chicago, IL 60637; E-mail: editor@jcp.uchicago.edu; Fax: 773-702-8314. Submission implies that the manuscript has not been published previously, and is not currently submitted for publication elsewhere. For detailed information for contributors, visit the above URL.

Publication Charge: To support the cost of wide dissemination of research results through publication of journal pages and production of a database of articles, the author's institution is requested to pay a page charge of \$55 per page (with a one-page minimum) and an article charge of \$20 per article. For any regular, published article that exceeds 12 journal pages, the requested page charge is \$150 for each page in excess of 12 pages. For Errata the minimum page charge is \$10, with no article charge.

Reprints: Reprints can be ordered with or without covers only in multiples of 50 (with a minimum of 100 in each category) from AIP, Circulation & Fulfillment/Reprints, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502; Fax: 516-349-9704; Telephone: 800-344-6909 (U.S. and Canada), or 516-576-2230.

Electronic Physics Auxiliary Publication Service (EPAPS): EPAPS is a low-cost electronic depository for material that is supplemental to a journal article. For a nominal fee, authors may submit multimedia (e.g., movie files, audio files, 3D rendering files), color figures, data tables, text (e.g., appendices), etc. Retrieval instructions are footnoted in the related published paper. Prominent links in the online journal article allow users to navigate directly to the associated EPAPS deposit. Direct requests to the Editor; for additional information see <http://www.aip.org/pubserv/epaps.html>.

The purpose of *The Journal of Chemical Physics* (JCP) is to bridge a gap between journals of physics and journals of chemistry by publishing quantitative research based on physical principles and techniques, as applied to "chemical" systems. Just as the fields of chemistry and physics have expanded, so have chemical physics subject areas which include polymers, materials, surfaces/interfaces, and biological macromolecules along with the traditional small molecule and condensed phase systems. JCP is published four times per month (48 issues per year) by the American Institute of Physics (AIP).

Comments: Authors may direct comments on the journal or on the editorial process to Doreene Berger, Manager, Editorial Operations, AIP, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502. Telephone: 516-576-2444; Fax: 516-576-2450; E-mail: dberger@aip.org.
