

## AUTHOR INDEX TO VOLUME 43

Within each author listing, papers are arranged in ascending page number order. References with (L) are Communications, Notes, or Comments and (E) are Errata. This index was produced directly from the SPIN<sup>®</sup> Database (Searchable Physics Information Notices) of the American Institute of Physics (AIP). For information about AIP's SPIN Database, please see <http://ojps.aip.org/spinweb/>. Suggestions for improvements of this index, as well as other comments, are welcome and should be addressed to the Editor.

This journal is also included in *Current Physics Index (CPI)*, a comprehensive index covering more than 40 physics journals published by AIP and its member and affiliated societies. For details about CPI and other AIP publications, see [http://www.aip.org/journal\\_catalog/](http://www.aip.org/journal_catalog/).
