

# Journal of Physical and Chemical Reference Data

CODEN: JPCRBV

ISSN: 0047-2689

URL: <http://www.aip.org/journals/jpcrd.html>

Malcolm W. Chase, Jr., Editor

## Editorial Board

*Term ending 31 December 1999*

Daniel G. Friend, Janice Reutt-Robey, James Tsang

*Term Ending 31 December 2000*

Ronald Munro, Irwin Singer

*Term Ending 31 December 2001*

James K. Olthoff, Steven Manson

## Management Board

John R. Rumble, Jr., Mary E. Scanlan, Martin L. Burke

Editorial Staff at NIST: Julian M. Ives, Jeanne R. Bride

Editorial Staff at AIP: Deborah McHone, *Editorial Supervisor*;  
Margaret Reilly, *Journal Coordinator*; Janet Panarelli, *Chief  
Production Editor*; Marilyn Schrage, *Senior Production Editor*

## Information for Contributors

**Submission:** The Editor welcomes appropriate manuscripts for consideration as Journal articles or monographs. Potential contributors who are interested in preparing a compilation are invited to submit an outline of the nature and scope of the proposed compilation, with criteria for evaluation of the data and other pertinent factors, to:

Editor, J. Phys. Chem. Ref. Data  
National Institute of Standards and Technology  
820 Bldg., Room 113  
820 West Diamond Ave.  
Gaithersburg, MD 20899-0001

**Preparation:** Manuscripts submitted for publication must be prepared in accordance with *Instructions for Preparation of Manuscripts for the Journal of Physical and Chemical Reference Data*, available on request from the Editor (Fax: 301-926-0416; E-mail: [jpcrd@nist.gov](mailto:jpcrd@nist.gov)).

**Monographs** are published at irregular intervals and are not included in subscriptions to the Journal. They contain compilations which are too lengthy for a journal format.

**One source of contributions** to the Journal is The National Standard Reference Data System (NSRDS), which was established in 1963 as a means of coordinating on a national scale the production and dissemination of critically evaluated reference data in the physical sciences. Under the Standard Reference Data Act (Public Law 90-396) the National Institute of Standards and Technology of the U.S. Department of Commerce has the primary responsibility in the Federal Government for providing reliable scientific and technical reference data. The Standard Reference Data Program of NIST coordinates a complex of data evaluation centers, located in university, industrial, and other Government laboratories as well as within the National Institute of Standards and Technology, which are engaged in the compilation and critical evaluation of numerical data on physical and chemical properties retrieved from the world scientific literature. The participants in this NIST-sponsored program, together with similar groups under private or other Government support which are pursuing the same ends, compose the National Standard Reference Data System.

**The primary focus of the NSRDS** is on well-defined physical and chemical properties of well-characterized materials or systems. An effort is made to assess the accuracy of data reported in the primary research literature and to prepare compilations of critically evaluated data which will serve as reliable and convenient reference sources for the scientific and technical community.

**The objective of the Journal** is to provide critically evaluated physical and chemical property data, fully documented as to the original sources and the criteria used for evaluation. Critical reviews of measurement techniques, whose aim is to assess the accuracy of available data in a given technical area, are also included. Papers which report new estimation or prediction techniques and test these techniques against existing databases are also accepted. The journal is not intended as a publication outlet for original experimental measurements such as those that are normally reported in the primary research literature, nor for review articles of a descriptive or primarily theoretical nature.

## Subscription Prices (1999)

	U.S.A.	Canada and Mexico	Other Foreign	Air Freight
				Europe, Mideast, Asia Africa and Oceania
Members (of ACS, AIP, or affiliated society)	\$116.00	\$116.00	\$127.00	\$144.00
Non-member individuals	\$265.00	\$276.00	—	\$293.00
Institutions	\$728.00	\$739.00	—	\$756.00†

†Regular rate subscriptions to Europe, Mideast, Asia, Africa, Oceania, and Central and South America include air freight services.

Rates do not apply to nonmember subscribers in Japan, who must enter subscription orders with Maruzen Company Ltd., 3-10 Nihonbashi 2-chrome, Chuo-ku, Tokyo 103, Japan. Tel. (03) 272-7211.

**Current 1999 single-issue price:** \$135.00.

**Back numbers** are available at a cost of \$135 per single copy, \$672 per volume 1990–1998, and \$448 per volume 1972–1989.

**Orders for reprints, supplements, monographs and back numbers** should be addressed to the AIP, Circulation & Fulfillment/Single Copy Sales, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502; Fax: 516-349-9704; Telephone: 800-344-6908 (U.S. and Canada) or 516-576-2277.

## Customer Service

**Subscription Orders and Renewals** should be sent with payment to American Institute of Physics, P.O. Box 503284, St. Louis, MO 63150-3284. Telephone: 800-344-6902 (U.S. and Canada) or 631-576-2230; Fax: 631-349-9704; E-mail: [subs@aip.org](mailto:subs@aip.org). Allow at least six weeks advance notice.

**Address Changes and General Customer Service Inquiries:** For address changes, please send both old and new addresses and, if possible, include the mailing label from a recent issue. Missing issue requests will be honored only if received within six months of publication date (nine months for Australia and Asia). Single copies of a journal may be ordered and back volumes are available in print, microfiche, or microfilm. Contact AIP Customer Services at 800-344-6902 (U.S. and Canada) or 631-576-2230; Fax: 631-349-9704; E-mail: [subs@aip.org](mailto:subs@aip.org).

## Rights and Permissions

**Copying:** Single copies of individual articles may be made for private use or research. Authorization is given to copy articles beyond the use permitted by Sections 107 and 108 of the U.S. Copyright Law, provided the copying fee for the article is paid to the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. The code that appears on the first page of articles in this journal gives the fee for each copy of the article made. If no code appears, no fee applies. Persons desiring to photocopy materials for classroom use should contact the CCC Academic Permissions Service.

Authorization does not extend to systematic or multiple reproduction, to copying for promotional purposes, to electronic storage or distribution, or to republication in any form. In all such cases, specific written permission from AIP must be obtained.

**Permission for Other Use:** Permission is granted to quote from the journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires the consent of one of the authors and notification to AIP.

**Requests for Permission:** Address requests to AIP Office of Rights and Permissions, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502; Fax: 631-576-2327; Telephone: 631-576-2268; Internet: [rights@aip.org](mailto:rights@aip.org).

## Additional Availability

**Microfilm subscriptions** of the *Journal of Physical and Chemical Reference Data* are available on 16 mm and 35 mm. A *Microfilm Catalog* is available on request.

**Online Availability:** Abstracts of journal articles published by the AIP and Member Societies (and several other physics publishers) are available from AIP's SPIN Web Service (<http://ojps.aip.org/spinweb/>). Abstracts of articles from the chemical literature are available via the ACS online service, ChemPort (<http://www.chemport.org>). Information on electronic databases is available from NIST (<http://www.nist.gov/srd>).

**The Journal of Physical and Chemical Reference Data** (ISSN 0047-2689) is published bimonthly by the American Chemical Society (1155 Sixteenth Street, N.W., Washington, DC 20036-9976) and the American Institute of Physics (Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502) for the National Institute of Standards and Technology. 1999 subscription rates are: US\$665. POSTMASTER: Send address changes to *Journal of Physical and Chemical Reference Data*, Membership and Subscription Services, P.O. Box 3337, Columbus, OH 43210-0012. Periodicals postage paid at Washington, DC and additional mailing offices.

**Copyright © 1999** by the U.S. Secretary of Commerce on behalf of the United States. All rights reserved. This copyright is assigned to the American Institute of Physics (AIP) and the American Chemical Society (ACS).

## American Institute of Physics

Suite 1NO1  
2 Huntington Quadrangle  
Melville, NY 11747-4502

John A. Armstrong	Chair, Governing Board
Marc H. Brodsky	Executive Director and CEO
Benjamin B. Snavely	Secretary
Richard Baccante	Treasurer and CFO
James H. Stith	Director of Physics Programs
Darlene A. Walters	Vice President, Publishing

The American Institute of Physics was founded in 1931; it is chartered as a membership corporation with leading societies in the fields of physics and astronomy as members. The Institute combines into one operating agency those functions which can best be done by the societies jointly. Its purpose is the advancement and diffusion of the knowledge of physics and its application to human welfare. About 100 000 physicists belong to its ten Member Societies: The American Physical Society, Optical Society of America, Acoustical Society of America, Society of Rheology, American Association of Physics

Teachers, American Crystallographic Association, American Astronomical Society, American Association of Physicists in Medicine, American Vacuum Society, American Geophysical Union. In addition, there are 20 Affiliated Societies, 84 Corporate Associates, and 6500 members of the Society of Physics Students.

For itself and its Member and Affiliated Societies, AIP publishes 43 archival journals, 17 translated Soviet journals, 3 magazines, conference proceedings, handbooks, and bulletin-programs, as well as an integrated package of current awareness journals, magnetic tapes, and microfilm. AIP also serves the public by making available to the press and other channels of public information reliable communications on physics and astronomy and their progress; carries on extensive career planning and placement activities; encourages and assists in the documentation and study of the history and philosophy of recent physics; cooperates with local, national, and international organizations devoted to physics and the related sciences; and fosters the relations of the science of physics to other sciences and to the arts and industries.

---

## American Chemical Society

1155 Sixteenth Street, NW  
Washington, DC 20036-9976

Joan E. Shields	Chairman of the Board
Paul H. L. Walter	President
John K. Crum	Executive Director
Brian A. Bernstein	Treasurer
Halley A. Merrell	Secretary
Robert J. Massie	Director, Chemical Abstracts Service
Robert D. Bovenschulte	Director, Publications Division*
Nancy R. Gray	Director, Membership Division
Sylvia A. Ware	Director, Education Division

The American Chemical Society was founded in 1876 as a scientific and educational society, and in 1937 was granted a national charter by an act of Congress. Its objectives include the advancement of chemistry, the promotion of research in science and industry, improvement of qualifications and usefulness of chemists, increased diffusion of chemical knowledge, and the promotion of scientific interest and inquiry.

ACS publishes 33 magazines, journals, and other scientific periodicals in addition to its participation in publication of the *Journal of Physical and Chemical Reference Data*. It also publishes books and other nonperiodical reports and operates the Chemical Abstracts Service, the key to the world's chemical literature. It pursues its objectives through its services to chemists and chemical engineers and to education, industry, and government.

\*Inquiries regarding ACS participation in JPCRD should be directed to this division.

## National Institute of Standards and Technology

U.S. Department of Commerce  
Gaithersburg, MD 20899-0001

U.S. Department of Commerce	William M. Daley, Secretary
Technology Administration	Dr. Cheryl L. Shavers, Under Secretary for Technology
National Institute of Standards and Technology	Raymond G. Kammer, Director

The National Institute of Standards and Technology (NIST), formerly the National Bureau of Standards, was established by an act of Congress 3 March 1901. NIST works to strengthen U.S. industry's international competitiveness, advance science and engineering, and improve public health, safety, and the environment. With an annual budget of more than \$588 million and about 3100 staff members, NIST conducts science and engineering research in commercially important fields such

as advanced materials, information systems, biotechnology, optoelectronics, computer-integrated manufacturing, and sensor technology.

NIST's laboratory research is designed to support development of critical emerging technologies and the new measurement methods and standards necessary to make them commercially viable. The ability of U.S.-based industries to exploit these new technologies determines in large part the health of the U.S. economy.

Several new NIST programs are designed to help spur innovation at U.S. businesses through seed money for development of generic technologies; grants to states for support of technology transfer programs; and financial and technical assistance to help small and mid-sized companies adopt more efficient manufacturing methods.

Throughout its history, NIST has helped industry to develop high-quality products and processes by supplying standard reference materials and data; by continuously improving technologies for precision measurements of mass, time, length, voltage, radiation, and other units; and through active participation in voluntary standards-setting bodies.
