

Journal of

Physical and Chemical Reference Data

CODEN: JPCRBU

ISSN: 0047-2689

jpcrd.aip.org

Co-Editors

Malcolm W. Chase, Jr., and John R. Rumble, Jr.
National Institute of Standards and Technology

Editorial Board

Term ending 31 December 2004

James K. Olthoff (NIST, Gaithersburg, MD)

Steven T. Manson (Georgia State University, Atlanta, GA)

Term ending 31 December 2005

David G. Shaw (University of Alaska Fairbanks, Fairbanks, AK)

Irwin L. Singer (Naval Research Laboratory, Washington, DC)

Term ending 31 December 2006

Robert E. Howard (The University of Tulsa, Tulsa, OK)

Ronald G. Munro (NIST, Gaithersburg, MD)

Management Board

John R. Rumble, Jr. (NIST), Thomas von Foerster (AIP)

Editorial Staff at NIST: Julian M. Ives, Linda Diane Decker
(E-mail: jpcrd@nist.gov; Tel.: 301-975-3774)

E-mail Production Staff at AIP: jpr@aip.org

Information for Contributors

Submissions: The Editor welcomes appropriate manuscripts for consideration as Journal articles or monographs. Potential contributors who are interested in preparing a compilation are invited to submit an outline of the nature and scope of the proposed compilation, with criteria for evaluation of the data and other pertinent factors, to: Editor, J. Phys. Chem. Ref. Data, National Institute of Standards and Technology, 820 Bldg., 820 West Diamond Ave., MS Stop 2310, Gaithersburg, MD 20899-2310, USA.

Preparation: Manuscripts submitted for publication must be prepared in accordance with *Instructions for Preparation of Manuscripts for the Journal of Physical and Chemical Reference Data*, available on request from the Editor (Tel.: 301-975-3774; Fax: 301-926-0416; E-mail: jpcrd@nist.gov).

Color Printing: Authors or their institutions must bear the cost of any color they wish to use in their papers. A fixed rate of \$650 for the first color figure and \$325 for each additional color figure applies. For multi-part figures, a single charge will apply only if all parts are submitted as a single piece of artwork.

Reprints: Order reprints with or without covers only in multiples of 50 from AIP, Circulation & Fulfillment/ Reprints, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502; Fax: 516-349-9704; Tel.: 1-800-344-6909 (U.S. & Canada), or 516-576-2270.

Supplemental Material may be deposited with AIP's Electronic Physics Auxiliary Publication Service (EPAPS), a low-cost online depository. For a nominal fee, authors may submit multimedia, color figures, data tables, text, etc. Address requests to the Editor; for additional information, see <http://www.aip.org/pubservs/epaps.html>.

Online Status Inquiry: During the production process, authors may access information about their accepted manuscripts at <http://www.aip.org/msinq/status.html>.

Journal of Physical and Chemical Reference Data (ISSN 0047-2689) is published quarterly by the American Institute of Physics (Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502) for the National Institute of Standards and Technology. The 2004 print + online base price is US\$845. POSTMASTER: Send address changes to *Journal of Physical and Chemical Reference Data*, AIP, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502. Periodicals postage rates are paid at Huntington Station, NY 11746, and at additional mailing offices.

One source of contributions to the Journal is The National Standard Reference Data System (NSRDS), which was established in 1963 as a means of coordinating on a national scale the production and dissemination of critically evaluated reference data in the physical sciences. Under the Standard Reference Data Act (Public Law 90-396) the National Institute of Standards and Technology of the U.S. Department of Commerce has the primary responsibility in the Federal Government for providing reliable scientific and technical reference data. The Standard Reference Data Program of NIST coordinates a complex of data evaluation centers, located in university, industrial, and other Government laboratories as well as within NIST, which are engaged in the compilation and critical evaluation of numerical data on physical and chemical properties retrieved from the world scientific literature. The participants in this NIST-sponsored program, together with similar groups under private or other Government support which are pursuing the same ends, compose the NSRDS.

The primary focus of the NSRDS is on well-defined physical and chemical properties of well-characterized materials or systems. An effort is made to assess the accuracy of data reported in the primary research literature and to prepare compilations of critically evaluated data which will serve as reliable and convenient reference sources for the scientific and technical community.

The objective of the Journal is to provide critically evaluated physical and chemical property data, fully documented as to the original sources and the criteria used for evaluation. Critical reviews of measurement techniques, whose aim is to assess the accuracy of available data in a given technical area, are also included. Papers which report new estimation or prediction techniques and test these techniques against existing databases are also accepted. The journal is not intended as a publication outlet for original experimental measurements such as those that are normally reported in the primary research literature, nor for review articles of a descriptive or primarily theoretical nature.

2004 Subscription Prices

Institutions: For information, visit <http://librarians.aip.org>. Institutional rates may be found online at http://www.aip.org/journal_catalog/2004NonmemberRateFixed.pdf or contact AIP Customer Services at subs@aip.org [Tel.: 1-800-344-6902 (U.S. and Canada) or 516-576-2270; Fax: 516-349-9704].

Members: The following rates are available to all individual members of AIP Member and Affiliate Societies:

	U.S.	Non-U.S. (Surface)	Optional Air
Print & online	\$142	\$164	\$175
Online only	\$70	\$70	\$70
Annual CD-ROM	Add \$30 to subscription price.		
Single issues:	\$220 for back issues for 2004 Prior years: \$220		Before 2002: \$140

Additional Availability

Online Access: *Journal of Physical and Chemical Reference Data* is available online at <http://jpcrd.aip.org>.

Document Delivery: Copies of journal articles can be ordered for online delivery from DocumentStore, AIP's online document delivery service (<http://www.documentstore.org>).

Customer Service

Subscription Orders and Renewals should be addressed to American Institute of Physics, P.O. Box 503284, St. Louis, MO 63150-3284. Tel.: 1-800-344-6902 (U.S. & Canada) or 516-576-2270; Fax: 516-349-9704; E-mail: subs@aip.org. Allow at least six weeks advance notice.

Inquiries, Address Changes, Claims, Single Copy Replacements, and Back Volumes: For address changes, please send both old and new addresses and, if possible, include the mailing label from a recent issue. Missing issue requests will be honored only if received within six months of publication date (nine months for Australia and Asia). Single copies of a journal may be ordered and back volumes are available. Contact AIP Customer Services at 1-800-344-6902 (U.S. & Canada) or 516-576-2270; Fax: 516-349-9704; E-mail: subs@aip.org.

Reprint Billing: Contact AIP Publication Charge and Reprints/CFD, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502; Tel.: 1-800-344-6909 (U.S. & Canada) or 516-576-2270; E-mail: pqr@aip.org.

Rights and Permissions

Copying: Single copies of individual articles may be made for private use or research. Authorization is given (as indicated by the Item Fee Code for this publication) to copy articles beyond the use permitted by Sections 107 and 108 of the U.S. Copyright Law, provided the copying fee of \$39 per copy per article is paid to the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Persons desiring to photocopy materials for classroom use should contact the CCC Academic Permissions Service. The Item Fee Code for this publication is 0047-2689/2004 \$39.00.

Authorization does not extend to systematic or multiple reproduction, to copying for promotional purposes, to electronic storage or distribution, or to republication in any form. In all such cases, specific written permission from AIP must be obtained.

Other Use: Permission is granted to quote from the journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires the consent of one of the authors and notification to AIP. See journal home page for author's Web posting guidelines.

Requests for Permission: Address requests to AIP Office of Rights and Permissions, Suite 1N01, 2 Huntington Quadrangle, Melville, NY 11747-4502; Fax: 516-576-2450; Tel.: 516-576-2268; E-mail: rights@aip.org.

Digital Object Identifier (DOI): Each article published is assigned a unique DOI that serves to identify the article in a digital environment. In print, the DOI appears at the end of the abstract.

James H. Stith	VP, Physics Resources
Darlene A. Walters	Senior VP, Publishing

The American Institute of Physics was founded in 1931 and chartered as a membership corporation for the purposes of the advancement and diffusion of knowledge of the science of physics—and its applications to human welfare. To this end, it is the purpose of AIP to undertake, among other measures:

- the publication of scientific journals;
- to serve the public by making available reliable information on physics and its progress;
- to cooperate with other physics-related organizations to promote unity and effectiveness of effort; and
- to foster the relations of physics to other sciences and to the arts and industries.

In order to achieve its purpose, AIP serves physics and related fields of science and technology by serving its Member Societies, individual scientists, educators, students, research and development leaders, and the general public with program, services and publications—**Information That Matters.**

AIP has set four goals—umbrella, pricing, image, and timeliness—for its programs, services, and publications. They are:

- value-added, naturally recognizable **umbrella** services for Member Societies and other constituencies;
- a financially viable enterprise based on a **pricing** model that is also viable for our customers;
- an improved **image** of physics and physicists through programs and publication information; and
- processes and procedures that improve the **timeliness** and thereby the effectiveness of all we do.

There are over 127,000 scientists represented by the Institute through its Members Societies. In addition, approximately 4,300 individuals in over 680 colleges and universities are members of the Institute's Society of Physics Students, which includes the honor society Sigma Pi Sigma. Industry is represented through 37 Corporate Associates members. AIP's flagship magazine, *Physics Today*, reaches all of these people and organizations.

National Institute of Standards and Technology

U.S. Department of Commerce

Gaithersburg, MD 20899 USA

www.nist.gov

U.S. Department of Commerce
Donald L. Evans, Secretary of Commerce
Technology Administration
Phillip J. Bond, Under Secretary of Commerce
for Technology
National Institute of Standards and Technology
Arden L. Bement, Jr., Director

Founded in 1901, NIST is a non-regulatory federal agency within the U.S. Commerce Department's Technology Administration. NIST's mission is to develop and promote measurement, standards, and technology to enhance productivity, facilitate trade, and improve the quality of life. NIST carries out its mission in four cooperative programs:

- the **NIST Laboratories**, conducting research that advances the nation's technology infrastructure and is needed by U.S. industry to continually improve products and services;
- the **Baldrige National Quality Program**, which promotes performance excellence among U.S. manufacturers, service companies, educational institutions, and health care providers; conducts outreach programs and manages the annual Malcolm Baldrige National Quality Award, which recognizes performance excellence and quality achievement;
- the **Manufacturing Extension Partnership**, a nationwide network of local centers offering technical and business assistance to smaller manufacturers; and
- the **Advanced Technology Program**, which accelerates the development of innovative technologies for broad national benefit by co-funding R&D partnerships with the private sector.

NIST has an operating budget of about \$864 million and operates in two locations: Gaithersburg, MD, (headquarters) and Boulder, CO. NIST employs about 3000 scientists, engineers, technicians, and support and administrative personnel. About 1600 guest researchers complement the staff. In addition, NIST partners with 2000 manufacturing specialists and staff at affiliated centers around the country.

NIST Standard Reference Data: For 30 years, NIST has provided well-documented numeric data to scientists and engineers for use in technical problem-solving, research, and development. These recommended values are based on data which have been extracted from the world's literature, assessed for reliability, and then evaluated to select the preferred values. These data activities are conducted by scientists at NIST and in university data centers.
