

## Plasma Physics

Fred L. Ribe, Editor

Loren C. Steinhauer, Resident Associate Editor

Julie L. Anderson and Barbara S. Pearson, Assistants to the Editor

### Associate Editors

**Term ending 31 December 1989**

J. Davis (Naval Research Lab.)  
C. W. Horton (U. Texas, Austin)  
G. Navratil (Columbia Univ.)  
C. Seyler (Cornell Univ.)

**Term ending 31 December 1990**

T. M. Antonsen (U. Maryland)  
R. L. McCrory, Jr. (U. Rochester)  
D. J. Sigmar (MIT)

**Term ending 31 December 1991**

R. Davidson (MIT)  
D. F. DuBois (Los Alamos Natl. Lab.)  
S. P. Gary (Los Alamos Natl. Lab.)

François N. Frenkiel, Founding Editor, 1958–1981

**AIP EDITORIAL STAFF:** Rosalind Nissim, *Managing Editor*; Maria Soldo, *Senior Copy Editor*

*Physics of Fluids B: Plasma Physics* is published monthly by the American Institute of Physics (AIP) with the cooperation of The American Physical Society and is devoted to original contributions to and reviews of the physics of plasmas, including magneto-fluid mechanics, kinetic theory and statistical mechanics of fully and partially ionized gases. The scope of contributed material includes equilibria, linear waves, and instabilities; nonlinear behavior, including turbulent and stochastic phenomena and associated transport, and solitons and shock waves; the physics of lasers and particle beams and charged-particle acceleration and transport; radiation generation, transport, propagation, and interaction with plasmas; gaseous electronics; plasma chemistry and processing; geophysical and astrophysical plasmas; plasma confinement by magnetic fields; inertial confinement physics; and the physics of dense plasmas or matter under extreme conditions.

### Information for Contributors

**Submit manuscripts (3 copies)** to Fred L. Ribe, Editor, *Physics of Fluids B: Plasma Physics*, College of Engineering, 356 Benson Hall, BF-20, University of Washington, Seattle, WA 98195.

Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

**Index** the article according to AIP's *Physics and Astronomy Classification Scheme—1988* (PACS)—see Phys. Rev. Lett. **59**, No. 21 (1987) or write for a free copy to PACS Editor, AIP. Choose up to four PACS numbers and type them in order of importance after the abstract.

**Publication Charge:** To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a *page charge* of \$50 per page (with a one-page minimum) and an *article charge* of \$20 per article. The page charge (if honored) entitles the author to 100 free reprints. For

Errata the minimum page charge is \$10, with no article charge and no free reprints. Nonpayment of the publication charge may lead to delays in publication.

**Manuscripts** for regular articles, letters, and brief communications must be prepared in accordance with the requirements of the Journal which are summarized on pages ix and x of the January issue of *Physics of Fluids B: Plasma Physics* this year. Authors should consult the *Style Manual* of AIP, which can be obtained (for \$7.50 prepaid) by writing to American Institute of Physics, 335 East 45th Street, New York, NY 10017-3483. Manuscripts submitted in a form which is not appropriate for the Journal may have to be returned to the authors. A manuscript must be accompanied by a letter of submission signed by one of the authors. Comments of referees will be communicated only to the author.

AIP's **Physics Auxiliary Publication Service (PAPS)** is a low-cost depository for material which is part of and supplementary to a published paper, but is too long to be included in the journal; inquire of the Editor.

**Proofs and all correspondence** concerning papers in the process of publication should be addressed to: Managing Editor, *Physics of Fluids B: Plasma Physics*, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797-2999. Reference must be made to title, author, journal, and scheduled date of issue. A limited number of alterations in proof are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

**Copyright 1989**, American Institute of Physics. Individual teachers, students, researchers, and libraries acting for them are permitted to make copies of articles in this journal for their own use in research or teaching, including multiple copies for classroom or library reserve use, provided such copies are not sold. Copying for sale is subject to payment of copying fees. (See "Copying Fees" paragraph elsewhere in this journal.) Permission is granted to quote from this journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires in addition the consent of one of the original authors and notification to AIP. Reproduction for advertising or promotional purposes, or republication in any form, is permitted only under license from AIP, which will normally require that the permission of one of the authors also be obtained. Direct inquiries to Office of Rights and Permissions, American Institute of Physics, 335 East 45th Street, New York, NY 10017-3483.

ARTICLES

Basic Plasma Phenomena, Waves, Instabilities

Plasma kinetic theory without the Markovian approximation: Numerical results	G. Pocobelli	485
New contributions to transit-time damping in multidimensional systems	P. A. Robinson	490

Nonlinear Phenomena, Turbulence, Transport

Nonlinear growth of the quasi-interchange instability	F. L. Waelbroeck	499
Damping rate of the ion-sound wave by the plasma-maser effect for a magnetized plasma	S. N. Sarma, S. Bujarbarua, M. Nambu, H. Fujiyama	506
Steady-state magnetohydrodynamic clump turbulence	David J. Tetreault	511
Drift wave vortices and anomalous transport	W. Horton	524
Experimental and numerical study of electromagnetic effects on resonance cones	U. Kortshagen, A. Piel	538

Magnetically Confined Plasmas, Heating, Confinement

Orbit effects on impurity transport in a rotating tokamak plasma	K. L. Wong, C. Z. Cheng	545
Three-dimensional plasma equilibrium near a separatrix	A. H. Reiman, N. Pomphrey, A. H. Boozer	555
Variational bounds for transport coefficients in three-dimensional toroidal plasmas	W. I. van Rij, S. P. Hirshman	563

Subscription Prices\* (1989)

	U.S.A. & Poss.	Can., Mex., Central & S. Amer. & Caribbean	Foreign Surface Mail	Air Freight Europe, Asia, Africa & Oceania	Optional Air Freight
<i>Physics of Fluids B: Plasma Physics</i> <sup>†</sup> Members <sup>‡</sup>	\$40.00	\$60.00	\$60.00	—	\$80.00
<i>Physics of Fluids A: Fluid Dynamics and Physics of Fluids B: Plasma Physics</i> Members <sup>‡</sup>	\$65.00	\$105.00	\$105.00	—	\$145.00
Reg. rate	\$765.00	\$805.00	—	\$845.00 <sup>  </sup>	—

\*The journal is available on microfiche at \$40 per year to members; the combination journals A and B are available on microfiche to members at \$65 per year and \$765 at the regular rate.

<sup>†</sup> Persons and institutions that are not Members must subscribe only to the combination *Physics of Fluids A: Fluid Dynamics and Physics of Fluids B: Plasma Physics*.

<sup>‡</sup> AIP Member and Affiliated Societies.

<sup>||</sup> Regular rate subscriptions to Europe, Asia, Africa, and Oceania include air freight service.

**Back-number prices:** Single copies: \$40.00.

*Physics of Fluids B: Plasma Physics* (ISSN: 0899-8221) is published monthly by the American Institute of Physics. Application to mail at second-class postage rates is pending at Woodbury, NY and at additional mailing offices. POSTMASTER: Send address changes to *Physics of Fluids B: Plasma Physics*, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

**Subscriptions, renewals, address changes, and single-copy orders** should be addressed to AIP Subscription Fulfillment Division, 335 East 45th St., New York, NY 10017-3483. Allow at least

six weeks advance notice. For address changes please send both old and new addresses and, if possible, include a label from the mailing wrapper of a recent issue. For your convenience a **change of address form is included in every issue of *Physics Today*; please use it.** Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price. (AIP Headquarters are located at 335 East 45th St., New York, NY 10017-3483; Subscription Fulfillment offices are located at 500 Sunnyside Blvd., Woodbury, NY 11797-2999.)

**Reprints** of individual articles in this journal may be ordered singly at \$10.00 per article copy (postage included) for articles up to 20 pages. Beyond 20 pages there is a surcharge of \$0.20 per page. Air mail delivery available. Orders are filled in 24 hours. Send orders to the American Institute of Physics, *Current Physics Reprints*, 335 East 45th St., New York, NY 10017-3483.

**Copying Fees:** The code that appears on the first page of articles in this journal gives the fee for each copy of the article made beyond the free copying permitted by AIP. (See statement under "Copyright" elsewhere in this journal.) If no code appears, no fee applies. The fee for pre-1978 articles is \$0.25 per copy. With the exception of copying for advertising and promotional purposes, the express permission of AIP is not required provided the fee is paid through the *Copyright Clearance Center, Inc. (CCC)*, 21 Congress Street, Salem, MA 01970. Contact the CCC for information on how to report copying and remit payment.

**Microfilm editions** of back volumes of this journal's predecessor *The Physics of Fluids* are available on 16 mm and 35 mm and will be available for *Physics of Fluids B: Plasma Physics* in 1990. Special discounts for the complete backfile of journals published by AIP are also available. *Physics of Fluids B: Plasma Physics* also appears on a monthly basis in *Current Physics Microform (CPM)* Section I along with 29 other journals published by the American Institute of Physics and its member societies. A *Microfilm Catalog* is available on request. *Physics of Fluids B: Plasma Physics* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP and its member societies.
