

## Plasma Physics

Ronald C. Davidson, Editor

Samuel A. Cohen, Resident Associate Editor

Ellen G. Webster, Assistant to the Editor

Barbara S. Pearson and Alyne Richard, Assistants to the Editor (Univ. Washington, Seattle)

### Associate Editors

#### Term ending 31 December 1991

D. F. DuBois (Los Alamos Natl. Lab.)

S. P. Gary (Los Alamos Natl. Lab.)

D. J. Sigmar (MIT)

#### Term ending 31 December 1992

P. M. Bellan (Cal. Inst. Technol.)

J. A. Swegle (L. Livermore Natl. Lab.)

P. W. Terry (Univ. Wisconsin)

K. Whitney (Naval Research Lab.)

#### Term ending 31 December 1993

I. H. Hutchinson (MIT)

R. L. McCrory (Univ. Rochester)

P. A. Sprangle (Naval Research Lab.)

Fred L. Ribe, Editor Emeritus

François N. Frenkiel, Founding Editor, 1958-1981

**AIP EDITORIAL STAFF:** Rosalind Nissim, *Editorial Supervisor*; Lin Miller, *Journal Coordinator*; Richard O'Keefe, *Senior Production Editor*; Kevin Malone, *Production Editor*

*Physics of Fluids B: Plasma Physics* is published monthly by the American Institute of Physics (AIP) with the cooperation of The American Physical Society and is devoted to original contributions to and reviews of the physics of plasmas, including magnetofluid mechanics, kinetic theory and statistical mechanics of fully and partially ionized gases. The scope of contributed material includes equilibria, linear waves, and instabilities; nonlinear behavior, including turbulent and stochastic phenomena and associated transport, and solitons and shock waves; the physics of lasers and particle beams and charged-particle acceleration and transport; radiation generation, transport, propagation, and interaction with plasmas; gaseous electronics; plasma chemistry and processing; geophysical and astrophysical plasmas; plasma confinement by magnetic fields; inertial confinement physics; and the physics of dense plasmas or matter under extreme conditions.

### Information for Contributors

**Submit manuscripts (3 copies)** to Ronald C. Davidson, Editor, *Physics of Fluids B: Plasma Physics*, Plasma Physics Laboratory, Princeton University, P.O. Box 451, Princeton, NJ 08543.

Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whichever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

**Index** the article according to AIP's *Physics and Astronomy Classification Scheme-1990 (PACS)*—see *Phys. Rev. Lett.* **63**, No. 24 (1989) or write for a free copy to PACS Editor, AIP. Choose up to four PACS numbers and type them in order of importance after the abstract.

**Publication Charge:** To support the cost of wide dissemination of research results through publication of journal pages and production of a database of articles, the author's institution is requested to pay a *page charge* of \$55 per page (with a one-page minimum) and an *article charge* of \$20 per article. For Errata the minimum page charge is \$10, with no article charge.

**Reprints:** Reprints may be ordered at current rates from AIP

Publication Billing Division, 500 Sunnyside Blvd., Woodbury, New York 11797-2999; minimum order of 100 is required.

**Manuscripts** for regular articles, letters, and brief communications must be prepared in accordance with the requirements of the Journal which are summarized on pages ix and x of the January issue of *Physics of Fluids B: Plasma Physics* this year. Additional style guidelines can be found in the 1990 Fourth Edition of the *AIP Style Manual*, published by the American Institute of Physics. It may be obtained for \$10.00 plus shipping charge (in U.S. and Canada, \$2.75; overseas \$7.50) prepaid, from the American Institute of Physics, c/o AIDC, 64 Depot Road, Colchester, VT 05446. To order via credit card, call toll free: 800-445-6638. Manuscripts submitted in a form which is not appropriate for the Journal may have to be returned to the authors. A manuscript must be accompanied by a letter of submission signed by one of the authors. Comments of referees will be communicated only to the author.

AIP's **Physics Auxiliary Publication Service (PAPS)** is a low-cost depository for material which is part of and supplementary to a published paper, but is too long to be included in the journal; inquire of the Editor.

**Proofs and all correspondence** concerning papers in the process of publication should be addressed to: Editorial Supervisor, *Physics of Fluids B: Plasma Physics*, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797-2999. Reference must be made to title, author, journal, and scheduled date of issue. A limited number of alterations in proof are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

**Copyright 1991**, American Institute of Physics. Individual teachers, students, researchers, and libraries acting for them are permitted to make copies of articles in this journal for their own use in research or teaching, including multiple copies for classroom or library reserve use, provided such copies are not sold. Copying for sale is subject to payment of copying fees. (See "Copying Fees" paragraph elsewhere in this journal.) Permission is granted to quote from this journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires in addition the consent of one of the original authors and notification to AIP. Reproduction for advertising or promotional purposes, or republication in any form, is permitted only under license from AIP, which will normally require that the permission of one of the authors also be obtained. Direct inquiries to Office of Rights and Permissions, American Institute of Physics, 335 East 45th Street, New York, NY 10017-3483.

\*The journal is available on microfiche at \$45 per year to members; the combination journals A and B are available on microfiche to members at \$75 per year and \$830 at the regular rate.

<sup>†</sup> Persons and institutions that are not Members must subscribe only to the combination *Physics of Fluids A: Fluid Dynamics and Physics of Fluids B: Plasma Physics*.

<sup>‡</sup> AIP Member and Affiliated Societies.

<sup>||</sup> Regular rate subscriptions to Europe, Asia, Africa, and Oceania include air freight service.

**Back-number prices:** Single copies: \$45.00.

*Physics of Fluids B: Plasma Physics* (ISSN: 0899-8221) is published monthly by the American Institute of Physics. Second-class postage rates paid at Woodbury, NY and at additional mailing offices. POSTMASTER: Send address changes to *Physics of Fluids B: Plasma Physics*, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

**Subscriptions, renewals, and address changes** should be addressed to *AIP Member and Subscriber Services (MASS) Division*, 500 Sunnyside Blvd. Woodbury, NY 11797-2999. Allow at least six weeks advance notice. For address changes please send both old and new addresses and, if possible, include a label from the mailing

wrapper of a recent issue. For your convenience a **change of address form is included in every issue of *Physics Today*; please use it.** AIP will honor a request for a missing journal issue only within six months of that issue's actual date of publication. Requests received for missing issues beyond six months of the actual publication date will not be honored. The issue may, however, be purchased at the single-copy price. (AIP Headquarters are located at 335 East 45th St., New York, NY 10017-3483.)

**Single-copy orders (current and back issues)** should be addressed to Publication Billing, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

**Reprints** of individual articles in this journal may be ordered singly at \$10.00 per article copy (postage included). Air mail delivery available. Orders are filled in within one week of receipt or of the date of publication, whichever is later. Send orders to the American Institute of Physics, Publication Billing, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

**Copying Fees:** The code that appears on the first page of articles in this journal gives the fee for each copy of the article made beyond the free copying permitted by AIP. (See statement under "Copyright" elsewhere in this journal.) If no code appears, no fee applies. The fee for pre-1978 articles is \$0.25 per copy. With the exception of copying for advertising and promotional purposes, the express permission of AIP is not required provided the fee is paid through the *Copyright Clearance Center, Inc. (CCC)*, 21 Congress Street, Salem, MA 01970. Contact the CCC for information on how to report copying and remit payment.

**Microfilm editions** of back volumes of this journal's predecessor *The Physics of Fluids* are available on 16 mm and 35 mm and will be available for *Physics of Fluids B: Plasma Physics* in 1990. Special discounts for the complete backfile of journals published by AIP are also available. *Physics of Fluids B: Plasma Physics* also appears on a monthly basis in *Current Physics Microform (CPM) Section I* along with 32 other journals published by the American Institute of Physics and its member societies. A *Microfilm Catalog* is available on request. *Physics of Fluids B: Plasma Physics* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP and its member societies.
