

Ronald C. Davidson, Editor
Samuel A. Cohen, Resident Associate Editor
Sandra L. Schmidt, Assistant Editor
Dianne Nunes, Assistant to the Editor

Associate Editors

Term ending 31 December 1996

Y. Y. Lau
University of Michigan
R. L. McCrory
University of Rochester
G. A. Navratil
Columbia University
D. Ross
University of Texas at Austin

Term ending 31 December 1997

B. Carreras
Oak Ridge National Laboratory
J. W. Connor
Culham Laboratory
D. F. DuBois
Los Alamos National Laboratory
S. P. Gary
Los Alamos National Laboratory

Term ending 31 December 1998

M. Desjarlais
Sandia National Laboratories
D. Hammer
Cornell University
K. Itoh
National Institute for Fusion Science
W. Nevins
Lawrence Livermore National Laboratory
K. Whitney
Naval Research Laboratory

Fred L. Ribe, Editor Emeritus
François N. Frenkiel, Founding Editor, 1958–1981

AIP Editorial Staff: Lin Miller, *Editorial Supervisor*; Andrea Witt, *Journal Coordinator*
Richard O'Keefe, *Chief Production Editor*; Kevin Malone, *Senior Production Editor*

Physics of Plasmas, published monthly by the American Institute of Physics (AIP) with the cooperation of The American Physical Society, is devoted to original contributions to and reviews of the physics of plasmas, including magnetofluid mechanics, kinetic theory and statistical mechanics of fully and partially ionized gases. The scope of contributed material includes equilibria, linear waves, and instabilities; nonlinear behavior, including turbulent and stochastic phenomena and associated transport, and solitons and shock waves; the physics of lasers and particle beams and charged-particle acceleration and transport; radiation generation, transport, propagation, and interaction with plasmas; gaseous electronics; plasma chemistry and processing; geophysical and astrophysical plasmas; plasma confinement by magnetic fields; inertial confinement physics; and the physics of dense plasmas or matter under extreme conditions.

Information for Contributors

Submit manuscripts (3 copies) to Ronald C. Davidson, Editor, *Physics of Plasmas*, Princeton Plasma Physics Laboratory, James Forrestal Campus, P.O. Box 451, Princeton, NJ 08543.

Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

Index the article according to AIP's *Physics and Astronomy Classification Scheme—1996* (PACS). The 1996 PACS scheme files are available through anonymous ftp (File Transfer Protocol) via the Internet, from pinet.aip.org or by writing for a free copy to PACS Editor, AIP. Choose up to four PACS numbers and type them, in order of importance, after the abstract.

Manuscripts for regular articles, letters, and brief communications must be prepared in accordance with the requirements of the Journal which are summarized on pages vii and viii of the January 1996 issue of *Physics of Plasmas*. Additional style guidelines can be found in the 1990 Fourth Edition of the *AIP Style Manual*, published by the American Institute of Physics. It may be obtained for \$10.00 prepaid, from the American Institute of Physics, c/o AIDC, 64 Depot Rd., Colchester, VT 05446. To order via credit card, call toll free: 800-809-2247.

Manuscripts submitted in a form which is not appropriate for the Journal may have to be returned to the authors. A manuscript must be accompanied by a letter of submission signed by one of the authors. Comments of referees will be communicated only to that author.

Physics Auxiliary Publication Service (PAPS) and/or Electronic PAPS (E-PAPS): For a nominal fee, authors may submit material that is part of and supplemental to a paper, but is too long to be included in the journal. PAPS deposits may be on paper or in electronic media, and can include text, data in graphic or numeric form, computer programs, etc. Retrieval instructions are footnoted in the related published paper. Direct requests to the editor.

Proofs and all correspondence concerning papers in the process of publication should be addressed to: Editorial Supervisor, *Physics of Plasmas*, American Institute of Physics, 500 Sunnyside Blvd., Woodbury, NY 11797-2999. Reference must be made to title, author, journal, and scheduled date of issue. A limited number of alterations in proof are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

Publication Charge: To support the cost of wide dissemination of research results through publication of journal pages and production of a database of articles, the author's institution is requested to pay a *page charge* of \$55 per page (with a one-page minimum) and an *article charge* of \$20 per article. For any regular, published article that exceeds 12 journal pages, a mandatory \$150 page charge will be added for each page in excess of 12 pages. For Errata the minimum page charge is \$10, with no article charge.

Permission for Other Use: Permission is granted to quote from the journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires the consent of one of the authors and notification to AIP.

Requests for Permission: Address requests to AIP Office of Rights and Permissions, 500 Sunnyside Boulevard, Woodbury, NY 11797-2999; Fax: 516-576-2327; Telephone: 516-576-2268; Internet: rights@aip.org.

Reprints: Reprints can be ordered with or without covers only in multiples of 50 (a minimum order of 100 in each category is required) from AIP, Circulation & Fulfillment/Reprints, 500 Sunnyside Boulevard, Woodbury, NY 11797-2999; Fax: 516-349-9704; Telephone: 800-344-6909 (in U.S. and Canada), or 516-576-2234.
