Submit manuscripts (3 copies) to Ronald C. Davidson, Editor, *Physics of Plasmas*, Princeton Plasma Physics Laboratory, James Forrestal Campus, P.O. Box 451, Princeton, NJ 08543.

Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

Physics Auxiliary Publication Service (PAPS) and/or Electronic PAPS (E-PAPS): For a nominal fee, authors may submit material that is part of and supplemental to a published paper, but is too long to be included in the journal. PAPS deposits may be on paper or in electronic media, and can include text, data in graphic or numeric form, computer programs, etc. Retrieval instructions are footnoted in the related published paper. Direct requests to the Editor.

Physics of Plasmas (ISSN: 1070-664X) is published monthly by the American Institute of Physics. Periodicals postage paid at Woodbury, NY 11797, and additional mailing offices. POSTMASTER: Send address changes to *Physics of Plasmas*, AIP, 500 Sunnyside Blvd., Woodbury, NY 11797-2999.

Online Access: *Physics of Plasmas* is available online to print subscribers at no additional charge; for details, please see <http://www.aip.org/ojs/entry.html>. Abstracts of journal articles are available from AIP's SPIN Database, via AIP's PINET Plus Service (<http://www.aip.org.pinet>).

Physics of Plasmas, published monthly by the American Institute of Physics (AIP) with the cooperation of The American Physical Society, is devoted to original contributions to and reviews of the physics of plasmas, including magnetofluid mechanics, kinetic theory and statistical mechanics of fully and partially ionized gases. The scope of contributed material includes equilibria, linear waves, and instabilities; nonlinear behavior, including turbulent and stochastic phenomena and associated transport, and solitons and shock waves; the physics of lasers and particle beams and charged-particle acceleration and transport; radiation generation, transport, propagation, and interaction with plasmas; gaseous electronics; plasma chemistry and processing; geophysical and astrophysical plasmas; plasma confinement by magnetic fields; inertial confinement physics; and the physics of dense plasmas or matter under extreme conditions.

Publication Charge: To support the cost of wide dissemination of research results through publication of journal pages and production of a database of articles, the author's institution is requested to pay a *page charge* of \$55 per page (with a one-page minimum) and an *article charge* of \$20 per article. For any regular, published article that exceeds 12 journal pages, a mandatory \$150 page charge will be added for each page in excess of 12 pages. For Errata the minimum page charge is \$10, with no article charge.
