The *Review of Scientific Instruments* is a monthly journal published by the American Institute of Physics and devoted to scientific instruments, apparatus, and techniques. Its contents include original and review articles on instruments in physics, chemistry, and the life sciences, book reviews, and sections on new instruments and new materials. One volume is published annually.

**Manuscripts** should be submitted to J. B. Horner Kuper, Editor, *Review of Scientific Instruments*, Brookhaven National Laboratory, Upton, Long Island, New York 11973. Unless otherwise stated, submission of a manuscript is a representation that it has not been copyrighted, published, or currently submitted for publication elsewhere. Material for the **New Instruments** and **New Materials and Components** sections should be submitted, respectively, to Joshua Stern and R. K. Eby, Associate Editors, *Review of Scientific Instruments*, National Bureau of Standards, Washington, DC 20234. Authors are advised to consult the "Suggestions for Contributors" in the January issue for further details.

**Publication charges:** To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a *page charge* of \$75 per page (with a one-page minimum) and an *article charge* of \$20 per article. The charge (if honored) entitles the author to 100 free reprints. For Errata the minimum page charge is \$10, with no article charge and no free reprints. Nonpayment of the publication charge may lead to delays in publication.

AIP's **Physics Auxiliary Publication Service (PAPS)** is a low-cost depository for material which is part of and supplementary to a published paper, but is too long to be included in the journal; inquire of the Editor.

**Proofs and all correspondence** concerning papers in the process of publication should be addressed to the Editorial Supervisor, *Review of Scientific Instruments*, American Institute of Physics, 335 East 45th Street, New York, New York 10017. In all correspondence, reference should be made to title, author, journal, and scheduled date of issue. A limited number of **alterations in proof** are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

**Advertising rates** will be supplied on request. Orders, advertising copy, and offset negatives should be sent to the American Institute of Physics.

**Subscriptions, renewals, orders for back numbers, and change of address** should be addressed to the American Institute of Physics, 335 East 45th Street, New York, New York 10017. For your convenience an **address change form** appears in each issue of *Physics Today*; please use it. Preferably include old and new addresses as well as a recent AIP address label. Please allow six weeks advance notice. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single copy price.
