The *Review of Scientific Instruments* is a monthly journal published by the American Institute of Physics and devoted to scientific instruments, apparatus, and techniques. Its contents include original and review articles on instruments in physics, chemistry, and the life sciences, book reviews, and sections on new instruments and new materials. One volume is published annually.

Submit manuscripts to J.B. Horner Kuper, Editor, *Review of Scientific Instruments*, Brookhaven National Laboratory, Upton, Long Island, New York 11973. Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is also available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the new (1978) U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

Material for the *New Instruments* and *New Materials and Components* sections should be submitted, respectively, to Joshua Stern and R.K. Eby, Associate Editors, *Review of Scientific Instruments*, National Bureau of Standards, Washington, DC 20234.

Manuscripts should conform in style with the "Suggestions for Contributors" printed in the January issue of the journal. Authors should also consult the *AIP Style Manual* available from American Institute of Physics, 335 East 45th Street, New York, NY 10017 for \$7.50 prepaid.

**Publication charge:** To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a page charge of \$75 per page (with a one-page minimum) and an article charge of \$20 per article. The charge (if honored) entitles the author to 100 free reprints. For Errata the minimum page charge is \$10, with no article charge and no free reprints. Nonpayment of the publication charge may lead to delays in publication.

AIP's *Physics Auxiliary Publication Service (PAPS)* is a low-cost depository for material which is part of and supplementary to a published paper, but is too long to be included in the journal. Inquire of the Editor.

**Proofs and all correspondence** concerning papers accepted for publication should be addressed to the Editorial Supervisor, *Review of Scientific Instruments*, American Institute of Physics, 335 East 45th Street, New York, New York 10017. In all correspondence, reference should be made to title, author, journal, and scheduled date of issue. A limited number of alterations in proof are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

**Advertising rates** will be supplied on request. Orders, advertising copy, and offset negatives should be sent to the American Institute of Physics.

**Copyright** 1978, American Institute of Physics. Individual readers of this journal, and nonprofit libraries acting for them, are freely permitted to make fair use of the material in it, such as to copy an article for use in teaching or research. (For other copying see "Copying Fees.") Permission is granted to quote from this journal in scientific works with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires, in addition, the consent of one of the original authors and notification of AIP. Republication or systematic or multiple reproduction of any material in this journal (including abstracts) is permitted only under license from AIP; in addition, AIP may require that permission also be obtained from one of the authors. Address inquiries and notices to Director, Publications Division, American Institute of Physics, 335 East 45th Street, New York, NY 10017.

Second-class postage paid at New York, NY, and additional mailing offices.

Subscriptions, renewals, orders for back numbers, and change of address should be addressed to the American Institute of Physics, 335 East 45th Street, New York, NY 10017. For your convenience an address change form appears in each issue of *Physics Today*; please use it. Preferably include old and new addresses as well as a recent AIP address label. Please allow six weeks advance notice. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single copy price.

Reprints of individual articles in this journal may be ordered singly at \$0.25 per page (orders filled in 24 hours) from the American Institute of Physics, Current Physics Reprints, 335 East 45th Street, New York, NY 10017.

Microfilm editions of back volumes of *The Review of Scientific Instruments* are available on 16 and 35 mm: Vols. 1-30 (1930-1959), \$344; Vols. 31-40 (1960-1969), \$273; Vol. 41 (1970), \$25; Vol. 42 (1971), \$27; Vol. 43 (1972), \$26; Vol. 44 (1973), \$26; Vol. 45 (1974), \$30; Vol. 46 (1975), \$35; Vol. 47 (1976), \$45. Special discounts for the complete back file of journals published by the American Institute of Physics are also available. The *Review of Scientific Instruments* also appears on a monthly basis in *Current Physics Microform (CPM) Section I* (\$2100 per year) along with 24 other journals published by AIP and its member societies. *The Review of Scientific Instruments* is indexed quarterly in *Current Physics Index (CPI)*, a subject and author index (with abstracts) to all journals published by AIP or its member societies.

Russian edition: A cover-to-cover translation of this journal is published under the title *Приборы для Научных Исследований* (Instruments for Scientific Research) by the Publishing House Mir in Moscow, USSR. Subscriptions may be obtained through *Mezhdunarodnaya Kniga*, Smolenskaya-Sennaya pl. 32/34, 121200 Moscow G-200, USSR, or a domestic subscription agency dealing with Soviet periodicals.
