

REVIEW OF SCIENTIFIC INSTRUMENTS

ISSN: 0034-6748
CODEN: RSINAK

Editor: Thomas H. Braid, Argonne National Laboratory
Consulting Editor: Simon Foner, National Magnet Lab., MIT
Editor Emeritus: J.B. Horner Kuper, Brookhaven National Laboratory
Associate Editor for New Instruments: Joshua Stern, NBS
Associate Editor for New Materials and Components: Barry L. Farmer, Washington State University

Term ending 31 December 1980

W.E. Blumberg (Bell Lab.), Charles C. Damm (Lawrence Livermore Lab.), J.D. Doss (Los Alamos Lab.), Daniel D. Elleman (Cal. Tech.), Ivan Getting (Univ. Col.), Richard Martin (Univ. Cal., Santa Barbara), George A. Samara (Sandia Lab.)

Term ending 31 December 1981

Klaus H. Berkner (Lawrence Berkeley Lab.), R.A. Buhrman (Cornell Univ.), James B. Callis (Univ. Wash.), C.E. Kuyatt (NBS), Lawrence G. Rubin (MIT), Peter David Southgate (RCA Lab.), Eric van Stryland (North Texas State Univ.)

Term ending 31 December 1982

Richard A. Forman (NBS), John M. Goodkind (Univ. Cal., San Diego), Michael J. Hiza (NBS, Boulder), Henry I. Smith (MIT), Kenneth D. Spears (Northwestern Univ.), Oliver C. Wells (IBM).

Editorial Assistants at AIP: Anke Junge, Senior Editorial Supervisor; William Payne, Assistant Editorial Supervisor; Jack Browne, Chief Copy Editor; Cristian Andrei, Copy Editor

The Review of Scientific Instruments is a monthly journal published by the American Institute of Physics and devoted to scientific instruments, apparatus, and techniques. Its contents include original and review articles on instruments in physics, chemistry, and the life sciences, book reviews, and sections on new instruments and new materials. One volume is published annually.

Submit manuscripts to Thomas H. Braid, Editor, *Review of Scientific Instruments*, Argonne National Laboratory, P.O. Box 290, Argonne, IL 60439. Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is also available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the new (1978) U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

Material for the New Instruments and New Materials and Components sections should be submitted respectively, to Associate Editors Joshua Stern, National Bureau of Standards, Washington, DC 20234 and Barry L. Farmer, Dept. of Materials Science and Engineering, Washington State University, Pullman, WA 99164.

Manuscripts should conform in style with the "Information for Contributors" printed in the January issue of the journal. Authors should also consult the *AIP Style Manual*, available from American Institute of Physics, 335 East 45th Street, New York, NY 10017 for \$7.50 prepaid.

Publication charge: To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a *page charge* of \$75 per page (with a one-page minimum) and an *article charge* of \$20 per article. The charge (if honored) entitles the author to 100 free reprints. For Errata the minimum page charge is \$10, with no article charge and no free reprints. Nonpayment of the publication charge may lead to delays in publication.

AIP's **Physics Auxiliary Publication Service (PAPS)** is a low-cost depository for material which is part of and supplementary to a published paper but is too long to be included in the journal. Inquire of the Editor.

Proofs and all correspondence concerning papers accepted for publication should be addressed to the Editorial Supervisor, *Review of Scientific Instruments*, American Institute of Physics, 335 East 45th Street, New York, NY 10017. In all correspondence, reference should be made to title, author, journal, and scheduled date of issue. A limited number of **alterations in proof** are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

Advertising rates will be supplied on request. Orders, advertising copy, and offset negatives should be sent to the American Institute of Physics.

Copyright 1980. American Institute of Physics. Individual readers of this journal, and nonprofit libraries acting for them, are freely permitted to make fair use of the material in it, such as to copy an article for use in teaching or research. (For other copying see "Copying Fees" paragraph below first page of Table of Contents.) Permission is granted to quote from this journal in scientific works with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires, in addition, the consent of one of the original authors and notification of AIP. Republication or systematic or multiple reproduction of any material in this journal (including abstracts) is permitted only under license from AIP; in addition, AIP may require that permission also be obtained from one of the authors. Address inquiries and notices to Director, Publications Division, American Institute of Physics, 335 East 45th Street, New York, NY 10017.

Second Class postage rates paid at Woodbury, NY and at additional mailing offices.

REVIEW OF SCIENTIFIC INSTRUMENTS

VOL. 51, NO. 3, MARCH 1980

ARTICLES

- | | | |
|-----|--|---|
| 273 | Tunable laboratory extended x-ray absorption fine structure system | G. G. Cohen, D. A. Fischer,
J. Colbert, N. J. Shevchik |
| 278 | On-line data acquisition system for acoustic emission signals | Hibbert A. Duncan,
Albert L. Anderson |
| 285 | Small barium rail gun for plasma injection | Y. Kiwamoto |
| 288 | A fully stabilized Brillouin spectrometer with high contrast and high resolution | R. Vacher, H. Sussner,
M. v. Schickfus |
| 292 | Five-frame, x-ray camera for charged particle, inertial confinement fusion studies | D. L. FehI, J. Chang,
G. W. Kuswa, C. W. Mendel |
| 299 | Multiscaler-microcomputer interface | Leo Wolpert |
| 302 | Thickness measurement of a thin oxide layer by secondary electron emission | K. Okamoto |
| 306 | Calorimetric system for recording plasma blowoff and scattered light distributions from laser plasmas | D. M. Villeneuve,
M. C. Richardson |
| 310 | Automatic, tracking, peak timer | D. J. Holcomb,
T. Koczynski |

(continued)

Subscription Prices (1980)	U.S.A.	Foreign	Optional air freight	
	and Poss.	(incl. Can. & Mex.)	Europe, Mideast, N. Africa	Asia and Oceania
Members (affiliated & member societies)	\$15.00	\$21.00	\$28.00	\$37.00
Regular rate	\$70.00	\$76.00	\$83.00	\$92.00

Back numbers are available for \$7.00 per issue.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to: Subscription Fulfillment Division, American Institute of Physics, 335 East 45th Street, New York, N.Y. 10017. Allow at least six weeks advance notice. For address changes please send both old and new addresses, and, if possible, include an address-stencil imprint from the mailing wrapper of a recent issue. For your convenience a **change of address form is included in every issue of *Physics Today*; please use it.** Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single copy price.

Reprints of individual articles in this journal may be ordered singly at \$0.50 per article page with a minimum charge of \$2.00 per order. Orders are filled in 24 hours. No postage charge for surface mail if order is prepaid. Send orders to the American Institute of Physics, *Current Physics Reprints*, 335 East 45th Street, New York, N.Y. 10017.

Copying Fees: The code at the bottom of the first page of each article in this journal gives the fee for each copy of the article made beyond the free copying permitted under the 1978 US Copyright Law. (See also the statement under "Copyright" elsewhere in this journal.) This fee can be paid to the American Institute of Physics through the *Copyright Clearance Center, Inc., Box 765, Schenectady, N.Y. 12301.* For articles published before 1978 the copying fee is \$0.25 per article.

Microfilm subscriptions of complete volumes of *The Review of Scientific Instruments* are available on 16 mm and 35 mm: Vols. 1-30 (1930-1959), \$344; Vols. 31-40 (1960-1969), \$273; Vol. 41 (1970), \$25; Vol. 42 (1971), \$27; Vol. 43 (1972), \$26; Vol. 44 (1973), \$26; Vol. 45 (1974), \$30; Vol. 46 (1975), \$35; Vol. 47 (1976), \$45; Vol. 48 (1977), \$50; Vol. 49 (1978), \$50; Vol. 50 (1979), \$50. *The Review of Scientific Instruments* also appears on a monthly basis in *Current Physics Microform (CPM) Section I* (\$2100 per year) along with 24 other journals published by the American Institute of Physics and its member societies. *The Review of Scientific Instruments* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP or its member societies.

Russian edition: A cover-to-cover translation of this journal is published under the title *Приборы для Научных Исследований (Instruments for Scientific Research)* by the Publishing House Mir in Moscow, USSR. Subscriptions may be obtained through *Mezhdunarodnaya Kniga, Smolenskaya-Sennaya pl. 32/34, 121200 Moscow G-200, USSR*, or a domestic subscription agency dealing with Soviet periodicals.
