

REVIEW OF SCIENTIFIC INSTRUMENTS

ISSN: 0034-6748
CODEN: RSINAK

Editor: Thomas H. Braid, Argonne National Laboratory
Consulting Editor: Simon Foner, National Magnet Lab., MIT
Editor Emeritus: J.B. Horner Kuper, Brookhaven National Laboratory
Associate Editor for New Instruments: Joshua Stern, 2703 Ross Road, Chevy Chase, MD 20015
Associate Editor for New Materials and Components: Barry L. Farmer, Washington State University

Editorial Board

Term ending 31 December 1982

Richard A. Forman (NBS)
John M. Goodkind (Univ. Cal., San Diego)
Michael J. Hiza (NBS, Boulder)
Hulbert C. S. Hsuan (Princeton Univ.)
Henry I. Smith (MIT)
Kenneth G. Spears (Northwestern Univ.)
Oliver C. Wells (IBM)

Term ending 31 December 1983

J. Dean Barnett (Brigham Young Univ.)
Lamar W. Coleman (Lawrence Livermore Lab.)
Brian M. Kincaid (Bell Lab.)
Peter V. Mason (Jet Propulsion Lab.)
Joseph R. Parker (Los Alamos Lab.)
John M. Parson (Ohio State Univ.)
James A. Westphal (Cal. Tech.)

Term ending 31 December 1984

Ansel C. Anderson (Univ. Illinois)
Robert J. Celotta (NBS)
John L. Hall (JILA)
John C. Haselgrove (Univ. Pennsylvania)
Michael S. Isaacson (Cornell Univ.)
Ka-Ngo Leung (Lawrence Berkeley Lab.)
W. Ronald Roach (RCA Lab.)

Editorial Assistants at AIP: Steven Kuduk, Chief Copy Editor; Jodi L. Kepke, Senior Copy Editor

The **Review of Scientific Instruments** is a monthly journal published by the American Institute of Physics (AIP) and devoted to scientific instruments, apparatus, and techniques. Its contents include original and review articles on instruments in physics, chemistry, and the life sciences, book reviews, and sections on new instruments and new materials. One volume is published annually.

Submit manuscripts to Thomas H. Braid, Editor, *Review of Scientific Instruments*, Argonne National Laboratory, P.O. Box 290, Argonne, IL 60439. Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is also available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the new (1978) U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

Material for the New Instruments and New Materials and Components sections should be submitted, respectively, to Associate Editors Joshua Stern, 2703 Ross Road, Chevy Chase, MD 20015 and Barry L. Farmer, Dept. of Materials Science and Engineering, Washington State University, Pullman, WA 99164.

Manuscripts should conform in style with the "Information for Contributors" printed in the January issue of the journal (page ix). Authors should also consult the AIP *Style Manual*, available from American Institute of Physics, Dept. BN, 335 East 45th Street, New York, NY 10017 for \$7.50 prepaid.

Publication charge: To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a *page charge* of \$85 per page (with a one-page minimum) and an *article charge* of \$20 per article. The charge (if honored) entitles

the author to 100 free reprints. For **Errata** the minimum page charge is \$10, with no article charge and no free reprints. Nonpayment of the publication charge may lead to delays in publication.

AIP's **Physics Auxiliary Publication Service (PAPS)** is a low-cost depository for material which is part of and supplementary to a published paper but is too long to be included in the journal; inquire of the Editor.

Proofs and all correspondence concerning papers accepted for publication should be addressed to: Editorial Supervisor, *Review of Scientific Instruments*, American Institute of Physics, 335 East 45th Street, New York, NY 10017. In all correspondence, reference should be made to title, author, journal, and scheduled date of issue. A limited number of **alterations in proof** are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

Advertising rates will be supplied on request. Orders, advertising copy, and offset negatives should be sent to: Advertising Department, American Institute of Physics, 335 East 45th Street, New York, NY 10017, 212-661-9404 x555.

Copyright 1982, American Institute of Physics. Individual readers of this journal, and nonprofit libraries acting for them, are freely permitted to make fair use of the material in it, such as to copy an article for use in teaching or research. (For other copying see "Copying Fees" paragraph below first page of Table of Contents.) Permission is granted to quote from this journal in scientific works with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires, in addition, the consent of one of the original authors and notification of AIP. Reproduction or systematic or multiple reproduction of any material in this journal (including abstracts) is permitted only under license from AIP; in addition, AIP may require that permission also be obtained from one of the authors. Address inquiries and notices to Office of Rights and Permissions, American Institute of Physics, 335 East 45th Street, New York, NY 10017.

REVIEW OF SCIENTIFIC INSTRUMENTS

VOL. 53, NO. 3, MARCH 1982

ARTICLES

- | | | |
|-----|--|--|
| 277 | Energetic ion mass spectrometer | M. Neugebauer, D. R. Clay,
B. E. Goldstein, R. Goldstein |
| 281 | Efficiencies of gas neutralizers for multi-MeV beams of light negative ions | L. R. Grisham, D. E. Post,
B. M. Johnson, K. W. Jones,
J. Barrette, T. H. Kruse,
I. Tserruya, Wang Da-Hai |
| 285 | New temperature measurement technique for thermal plasmas | M. T. Mehmetoğlu, F. Kitzinger,
W. H. Gauvin |
| 294 | Technique for generating focal-plane flat-top laser-beam profiles | Wilfrid B. Veldkamp |
| 298 | Jitter debugging two laser experiments | D. M. Rayner, P. A. Hackett,
C. Willis |
| 301 | Selective removal of F₂ impurity from NF₃/Xe/Ne, XeF laser mixtures | A. Mandl, R. Slater, C. H. Appel |

(continued)

Subscription Prices (1982)	U.S.A. and Poss.	Foreign (incl. Can. & Mex.)	Optional air freight Europe, Mideast, N. Africa	Asia and Oceania
Members (affiliated & member societies)	\$30.00	\$40.00	\$50.00	\$66.00
Regular rate	\$130.00	\$140.00	\$150.00	\$166.00

Back numbers are available for \$13.00 per issue.

The *Review of Scientific Instruments* is published monthly by the American Institute of Physics. Second class postage paid at Woodbury, NY and at additional mailing offices.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to *AIP Subscription Fulfillment Division, 335 East 45th St., New York, NY 10017*. Allow at least six weeks advance notice. For address changes please send both old and new addresses, and, if possible, include an address-stencil imprint from the mailing wrapper of a recent issue. For your convenience a **change of address form is included in every issue of *Physics Today*; please use it.** Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price. (AIP Headquarters and Advertising offices are located at 335 East 45th St., New York, NY 10017; Subscription Fulfillment offices are located at 500 Sunnyside Blvd., Woodbury, NY 11797.)

Reprints of individual articles in this journal may be ordered

singly at \$10.00 per article copy (postage included) for articles up to 20 pages. Beyond 20 pages there is a surcharge of \$0.20 per page. Air mail delivery available. Orders are filled in 24 hours. Send orders to the American Institute of Physics, *Current Physics Reprints*, 335 East 45th St., New York, NY 10017.

Copying Fees: The code at the bottom of the first page of each article in this journal gives the fee for each copy of the article made beyond the free copying permitted under the 1978 US Copyright Law. (See also the statement under "Copyright" elsewhere in this journal.) This fee can be paid to the American Institute of Physics through the *Copyright Clearance Center, Inc., 21 Congress St., Salem, MA 01970*. For articles published before 1978 the copying fee is \$0.25 per article.

Microfilm subscriptions of complete volumes of *The Review of Scientific Instruments* are available on 16 mm and 35 mm. *The Review of Scientific Instruments* also appears on a monthly basis in *Current Physics Microform* (CPM) Section I along with 26 other journals published by the American Institute of Physics and its member societies. A *Microfilm Catalog* is available on request. *The Review of Scientific Instruments* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP and its member societies.

Russian edition: A cover-to-cover translation of this journal is published under the title *Приборы для Научных Исследований* (Instruments for Scientific Research) by the Publishing House Mir in Moscow, USSR. Subscriptions may be obtained through *Mezhdunarodnaya Kniga, Smolenskaya-Sennaya pl. 32/34, 121200 Moscow G-200, USSR*, or a domestic subscription agency dealing with Soviet periodicals.
