The Review of Scientific Instruments is a monthly journal published by the American Institute of Physics (AIP) and devoted to scientific instruments, apparatus, and techniques. Its contents include original and review articles on instruments in physics, chemistry, and the life sciences, book reviews, and sections on new instruments and new materials. One volume is published annually.

Submit manuscripts to Thomas H. Braid, Editor, *Review of Scientific Instruments*, Argonne National Laboratory, P.O. Box 290, Argonne, IL 60439. Submission is a representation that the manuscript has not been published previously nor currently submitted for publication elsewhere. The manuscript should be accompanied by a statement transferring copyright from the authors (or their employers—whoever holds the copyright) to AIP; a suitable form for copyright transfer is occasionally printed in the back of this journal and is also available from the Editor's office or AIP. This written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the 1978 U.S. copyright law in order for AIP to continue disseminating physics research results as widely as possible. Further information may be obtained from AIP.

Manuscripts should be in duplicate and typed double space throughout [see the "Information for Contributors" printed in the January issue of the journal (page xii)]. Authors should also consult the *AIP Style Manual*, available from American Institute of Physics, Dept. BN, 335 East 45th Street, New York, NY 10017 for \$7.50 prepaid.

Material for the New Instruments and New Materials and Components sections should be submitted, respectively, to Associate Editors Joshua Stern, 2703 Ross Road, Chevy Chase, MD 20015 and Barry L. Farmer, Dept. of Materials Science and Engineering, Washington State University, Pullman, WA 99164.

Publication charge: To support the cost of wide dissemination of research results through publication of journal pages and production of a data base of articles, the author's institution is requested to pay a *page charge* of \$65 per page (with a one-page minimum) and

an *article charge* of \$20 per article. The charge (if honored) entitles the author to 100 free reprints. For **Errata** the minimum page charge is \$10, with no article charge and no free reprints. Nonpayment of the publication charge may lead to delays in publication.

AIP's **Physics Auxillary Publication Service (PAPS)** is a low-cost depository for material which is part of and supplementary to a published paper but is too long to be included in the journal; inquire of the Editor.

Proofs and all correspondence concerning papers accepted for publication should be addressed to: Editorial Supervisor, *Review of Scientific Instruments*, American Institute of Physics, 335 East 45th Street, New York, NY 10017. In all correspondence, reference should be made to title, author, journal, and scheduled date of issue. A limited number of **alterations in proof** are unavoidable, but the cost of making extensive alterations after the article has been set in type will be charged to the author.

Advertising rates will be supplied on request. Orders, advertising copy, and offset negatives should be sent to: Advertising Department, American Institute of Physics, 335 East 45th Street, New York, NY 10017, 212-661-9404 x555.

Copyright 1984, American Institute of Physics. Individual teachers, students, researchers, and libraries acting for them are permitted to make copies of articles in this journal for their own use in research or teaching, including multiple copies for classroom or library reserve use, provided such copies are not sold. Copying for sale is subject to payment of copying fees. (See "Copying Fees" paragraph elsewhere in this journal.) Permission is granted to quote from this journal with the customary acknowledgment of the source. To reprint a figure, table, or other excerpt requires in addition the consent of one of the original authors and notification to AIP. Reproduction for advertising or promotional purposes, or republication in any form, is permitted only under license from AIP, which will normally require that the permission of one of the authors also be obtained. Direct inquiries to Office of Rights and Permissions, American Institute of Physics, 335 East 45th Street, New York, NY 10017.

The *Review of Scientific Instruments* (ISSN: 0034-6748) is published monthly by the American Institute of Physics. Second class postage rates are paid at Woodbury, NY, and at additional mailing offices.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to *AIP Subscription Fulfillment Division, 335 East 45th St., New York, NY 10017*. Allow at least six weeks advance notice. For address changes please send both old and new addresses and, if possible, include a mailing label from the wrapper of a recent issue. For your convenience a **change of address form is included in every issue of *Physics Today*; please use it**. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price. (AIP Headquarters and Advertising offices are located at 335 East 45th St., New York, NY 10017; Subscription Fulfillment offices are located at 500 Sunnyside Blvd., Woodbury, NY 11797.)

Reprints of individual articles in this journal may be ordered singly at \$10.00 per article copy (postage included) for articles up to

20 pages. Beyond 20 pages there is a surcharge of \$0.20 per page. Air mail delivery is available. Orders are filled in 24 hours. Send orders to the American Institute of Physics, *Current Physics Reprints*, 335 East 45th St., New York, NY 10017.

Copying Fees: The code that appears on the first page of articles in this journal gives the fee for each copy of the article made beyond the free copying permitted by AIP. (See statement under "Copyright" elsewhere in this journal.) If no code appears, no fee applies. The fee for pre-1978 articles is \$0.25 per copy. With the exception of copying for advertising and promotional purposes, the express permission of AIP is not required provided the fee is paid through the *Copyright Clearance Center, Inc. (CCC), 21 Congress St., Salem, MA 01970*. Contact the CCC for information on how to report copying and remit payment.

Microfilm subscriptions of complete volumes of the *Review of Scientific Instruments* are available on 16 mm and 35 mm. The *Review of Scientific Instruments* also appears on a monthly basis in *Current Physics Microform (CPM) Section 1* along with 25 other journals published by the American Institute of Physics and its member societies. A *Microfilm Catalog* is available on request. The *Review of Scientific Instruments* is indexed quarterly in *Current Physics Index*, a subject and author index (with abstracts) to all journals published by AIP and its member societies.

Russian edition: A cover-to-cover translation of this journal is published under the title *Приборы для Научных Исследований (Instruments for Scientific Research)* by the Publishing House Mir in Moscow, USSR. Subscriptions may be obtained through *Mezhdunarodnaya Kniga, Smolenskaya-Sennaya pl. 32/34, 121200 Moscow G-200, USSR*, or a domestic subscription agency dealing with Soviet periodicals.
